A Critical Assessment with Focus on South Africa and Zimbabwe* Talkmore Chidede, 2016-09 This study undertakes a critical assessment of the legal protection of foreign direct investments FDI in South Africa and Zimbabwe by determining their compliance with the international minimum standards norms and or best practices on the legal protection of FDI by host states Firstly the study argues that

foreign investment is much needed in South Africa and Zimbabwe to improve economic growth and development to create jobs and to increase their competitiveness. However, these benefits are not accrued automatically but rather host states need to create an enabling environment to receive such benefits. Thus, host states need to put an investment scheme into operation to guarantee the legal protection of foreign investments. South Africa and Zimbabwe have at large crafted and implemented investment laws and related policies which tend to be hostile towards foreign investments. Therefore, similar investment laws and related policies in both jurisdictions are analysed. This study will also offer recommendations for a legal investment which is not only flexible, friendly and favourable to foreign investment in South Africa and Zimbabwe but also advances their local economic policies.

Foreign Relations in Federal Countries Hans Michelmann, 2009-01-28. Foreign Relations in Federal Countries addresses questions such as: What constitutional powers do the federal governments and constituent states have to conduct foreign affairs? To what degree are relations between orders of government regularized by formal agreement or informal practice? What roles do constituent governments have in negotiation and implementation of international treaties? The volume offers a comparative perspective on the conduct of foreign relations in twelve federal countries: Argentina, Australia, Austria, Belgium, Canada, Germany, India, Malaysia, South Africa, Spain, Switzerland, and the United States. **Guide to South African Reference Books** Reuben Musiker, Naomi Musiker, 1997. Only a small proportion of the more than 1 100 entries have been retained from the earlier editions and supplements. 1955 to 1983 more publications reflecting social and economic changes in South Africa have been included and the annotations are more extensive. The main focus is on references such as dictionaries, yearbooks and encyclopedias but handbooks, manuals and histories are cited if no conventional references exist on the subject. The selection is not limited to books published in South Africa. The arrangement is by broad subject headings following the Dewey Decimal system. The annotations are primarily descriptive but evaluations creep in now and again. Distributed by Books International. Annotation copyrighted by Book News Inc, Portland, OR.
