Ellen T. Harris, 2014-09-29 During his lifetime the sounds of Handel's music reached from court to theater echoed in cathedrals and filled crowded taverns but the man himself known to most as the composer of Messiah is a bit of a mystery Though he took meticulous care of his musical manuscripts and even provided for their preservation on his death very little of an intimate nature survives One document Handel's will offers us a narrow window into his personal life In it he remembers not only family and close colleagues but also neighborhood friends In search of the private man behind the public figure Ellen T Harris has spent years tracking down the letters diaries personal accounts legal cases and other documents connected to these bequests The result is a tightly woven tapestry of London in the first half of the eighteenth century one

that interlaces vibrant descriptions of Handel's music with stories of loyalty, cunning and betrayal. With this wholly new approach, Harris has achieved something greater than biography. Layering the interconnecting stories of Handel's friends like the subjects and countersubjects of a fugue, Harris introduces us to an ambitious, shrewd, generous, brilliant and flawed man hiding in full view behind his public persona.

Uganda's Human Resource Challenge Jörg Wiegratz, 2009. Despite significant economic recovery and improved macro economic indicators since 1986, Uganda's economy continues to face considerable challenges. This book analyses the relationship between economic and human resource development in the country. It identifies deficits in capabilities, skills, know-how, experience, linkage building and technology use, as well as undesirable business practices. These shortcomings limit economic diversification, productivity enhancement, job and income creation, as well as poverty reduction. The book calls for more efforts towards human resource development. The current narrow mainstream economic policy focus on macro economic stability, a favourable investment climate and improved physical infrastructure alone will not foster economic development and broad-based well-being. The Ugandan people and the private sector need more state support in addition to the predominant education and health focus of the government and donors if they are to develop the required human resources. More and better training, enhanced learning at the place of work and an improved business culture are vital. It is essential to focus on technical, organisational, managerial, entrepreneurial learning, innovative social and institutional capabilities. Efforts towards dealing with these challenges will require attention to the political economic climate of the country. To make the argument, the author covers a wide range of topics such as training and learning, technology, productivity, latecomer development, competitiveness, labour market, MSMEs, entrepreneurship, value chains, cooperation and trust, and human resource management. The book contains more than 130 figures, tables and information boxes. See more at <http://www.africanbookscollective.com/books/ugandas-human-resource-challenge-sthash4XThRHxq.dpuf>
