**Parents as Educators** Keith J. Topping, 2025-08-05 Modern practice in the 1980s was to involve parents increasingly in the education of their children and was supported by legislation Particularly when children had special needs parents required structured training and support to ensure they affectively sustained their vital role as educators at home Many large scale programmes to provide this had been developed throughout the world at the time for example Home Start Portage Home Visiting Projects and Paired Reading Projects However not all of these had been thoroughly evaluated and the existing literature was scattered and difficult to access Some projects demonstrated spectacular results and high cost effectiveness while others proved more disappointing Originally published in 1986 this book critically analyses over 600 international English language research reports on the effectiveness of parent training programmes In addition a detailed guide to the practicalities of planning projects is provided together with a comprehensive directory of useful resource materials After an introductory overview the evidence on the effects on child progress of parental involvement in school activities is reviewed as is research on the impact of schemes of regular structured communication between home and school Programmes designed to train parents to accelerate the development of their children at home are considered in the subsequent chapters starting with ordinary children Much of the book reviews

projects targeted on children with some sort of special educational need from children whose special needs stem from a widespread difficulty such as poverty or second language learning systematically through to children whose needs stem from rarer and more severe issues Each chapter has its own summary for ease of reader use while an overall summary chapter points out best buys and directions for future developments This volume will be of major interest to teachers psychologists social workers community health personnel community educationalists researchers many others working with parents and children and to some parents themselves This book is a re issue originally published in 1986 The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this re publication *Handbook of Psychological and Educational Assessment of Children* Cecil R. Reynolds, Randy W. Kamphaus, 2018-10-16 The two volumes of the Handbook of Psychological and Educational Assessment of Children Second Edition cover all aspects of child and adolescent assessment Leading clinical scientists summarize the state of the science of assessment paradigms instruments and methods With an emphasis on practical clinical considerations chapters also delve into issues related to test development psychometrics and bias Conveniently designed for reference or text use this vast knowledge base has been synthesized into two volumes which may be purchased separately or together INTELLIGENCE APTITUDE AND ACHIEVEMENT surveys assessment of intelligence learning styles and academic achievement covers historical issues and psychometric methods and addresses diversity issues ethical concerns and special topics in mental testing PERSONALITY BEHAVIOR AND CONTEXT reviews the use of projective methods interviewing and observation and objective methods of assessing personality and behavior discusses the assessment of specific syndromes and symptoms and presents tools for assessing adaptive skills and the family context Encyclopedia of Psychological Assessment Rocio Fernandez-Ballesteros, 2002-12-20 once you let a clinical psychologist lay hands on this book it is quite difficult to get it back again Martin Guha Librarian Institute of Psychiatry London The Encyclopedia of Psychological Assessment is a landmark reference work and constitutes a definitive resource for academics practitioners and students working in any field of applied psychological science Psychological assessment is a key component of psychological work Devices of scientific assessment are necessary for adequate describing diagnosis predicting explaining or changing the behaviour of all subjects under examination This double volume collection offers complete coverage to facilitate action in each of these areas and will consequently be invaluable to psychologists in any applied setting The two volumes of the Encyclopedia of Psychological Assessment contain a series of 235 entries organized alphabetically and covering a variety of fields Each entry includes a general conceptual and methodological overview a section on relevant assessment devices followed by links to related concepts in the Encyclopedia and a list of references The Encyclopedia of Psychological Assessment provides A comprehensive network for psychological assessment as a conceptual and methodological discipline and as a professional activity An overview of the complexity of assessment which involves not only testing but also a process of decision making for answering relevant questions that arise in the

different applied fields A presentation of relevant issues from basic theory theoretical perspectives ethics and methodology validity reliability item response theory to technology and modes of assessment tests instruments and equipment for measuring behavioral operations An attempt to unify this diverse field by offering full coverage of all areas from the most traditional such as clinical educational and work and organizational psychology to the most recent applications linked to health gerontology neuropsychology psychophysiology and environmental assessment The Encyclopedia of Psychological Assessment offers a truly international perspective both in terms of the selected authors and chosen entries It aims to provide an integrated view of assessment bringing together knowledge dispersed throughout several methodological and applied fields but united in terms of its relevance for assessment It is an essential purchase for any library with an existing collection or concern with the field of psychological science in general **Hong Kong Developmental Assessment**
