Innovation Manual provides a solution to the problems faced by those at the forefront of innovation. It takes you through the seven topics that have the highest impact on the success of value innovation: be this innovation a new product, a new service or a new business model. The seven topics are: Creating advantage in the minds of many; Chartering innovation within the organization; Preparing, developing and supporting the right team; Placing customers at the centre of innovation; Changing the organization to deliver the innovation; Motivating the right partners and sharing the returns; Building momentum in the market. Each topic is linked to an organized toolkit that allows managers to apply this knowledge immediately. The tools sit within an overall framework to show how they build on and reinforce one another. Along with this, the book guides busy managers on applying the tools properly, detailing the relevance of each for specific industries and how to customize them when necessary.

Intellectual Property Licensing and Transactions Jorge L. Contreras, 2022-06-30. Intellectual property transactions underlie large segments of the global economy, from pharmaceuticals to computing, entertainment to digital content. This first of its kind resource combines practical contract drafting and negotiation skills with substantive legal doctrine in the rapidly growing area of intellectual property transactions and licensing. Though primarily designed for classroom use, it is also a must-have legal reference work for every lawyer involved in the technology, biopharma, entertainment, media or financial services industries. It includes practical drafting models and explanations of key contractual provisions such as field of use, exclusivity, milestones, royalties, termination, indemnification and liability, and combines these with discussion of the latest cases interpreting these provisions. Numerous legal doctrines that affect the enforcement of IP agreements are also covered. An instructor's manual for this book is currently being developed.
