sequels as well as a prestige HBO TV series Will Brooker explores the way that Watchmen expanded over time from the mid 1980s to the present day drawing on theories of adaptation intertextuality and deconstruction to argue that each addition subtly changes our understanding of the original Does it matter whether these adaptations are faithful Can they ever be as they cross over into another medium How does each version enter a dialogue with the others And as Damon Lindelof's series ran parallel to an entirely distinct comic book Watchmen sequel Doomsday Clock how do readers and viewers make sense of these conflicting narratives Can we relate the unstable shifting stories of Watchmen to our contemporary climate of post truth where we have to weigh up contradictory versions of the facts and decide which we believe **Superhero Bodies**
