while creating works of art and bringing them to the public's attention. The story encompasses the tragedies and the successes in the Housers' lives and their interaction with others. Written by the artist's wife, Connie Houser herself, an awarded artist and writer, it spans the artists' relationship thus far and offers insights into their creative work. *The Letters: Portrait of an Artist* by Jim Houser follows the artists' creative work accomplished during their hectic everyday existence. The same full lives of having a family, a home, and a job to pay bills necessary today to most people. Although the letters themselves are an imaginative artistic device to enliven the book, the events are true. Not satisfied to just get by, they made career choices that would eventually make them both candidates for inclusion in the prestigious *Marquis Who's Who* editions of art literature: *America* and *the World*. Jim has been represented in those volumes for fifteen years, and Connie joined the ranks in 2004. Photographs of his paintings will also appear in the 2008/2009 *Who's Who in American Art*. Artist's gallery. Their ability to continue to work under conditions that might discourage others is made clear in *The Letters: Portrait of an Artist* by Jim Houser. Jim's profession is painting, and Connie's is writing and painting. The rest of their work, although they contributed much, enjoyed it, and performed with excellence, was done to pay the bills. Jim was a 30-year college professor and full-time family man; Connie organized family matters, taught part-time while writing for various publications and magazines, plus painting. The carousing hours were the working hours for their creative efforts because silence reigned. Their many travel adventures in the states and abroad guaranteed they played hard with the same energy and enthusiasms. When Jim began winning countless awards for his painting, he was invited to show at numerous exhibitions and in New York City galleries. They added these events, plus art show openings, to their already hectic schedule. Through it all, they managed a fulfilling family life while taking creative care of their parents and allowing them their desired home life. *Louis Bamberger* Linda B. Forgosh, 2016-09-06. A dive right in quick start guide for busy library professionals who want to build literacy, STEAM, and other 21st-century skills using simple robots in a fun, collaborative environment. Robotics in the library. Absolutely. It also includes complete instructions for various program models that employ robotics. Robotics programs are an ideal way for public and school libraries to demonstrate their vital roles as the hubs of community learning, and the subject is universally popular with students as well as parents and industrial funders. The book's clearly and succinctly written chapters begin by providing the information that librarians will need for stakeholders and to select equipment, then move logically into addressing guided activities and expansion ideas.
