Good Adjectives And Meaning:

An Open Dimension of Meaning: A Semantic Study of Adjectives and Their Combinations Jesús Gerardo Martínez del Castillo, 1997-01-01 Adjectives are lexematic words functioning at the three levels of linguistic competence They form a category they belong to particular languages and they are elements of free use by speakers As virtual they belong to the system of the language as instruments of expression they belong to the norm of the language and as instruments of communication they belong to discourse At the same time adjectives are predicates the expression of a state of affairs provided with the instruments of relation and combination in a sentence or in a phrase This study analyses the potentialities of expression and interpretation of adjectives

Adjectives as nouns, mainly as attested in [i]Boethius[i]
translations from Old to Modern English and in Modern German Anne Aschenbrenner, 2014-07-23 Adjectives can be used as nouns in English as well as in German In Modern German however they can assume a greater variety of forms than is possible in Modern English partly as a result of the loss of inflectional endings in English e g Modern German i gut das Gut das Gute der Gute die Gute die Guten die G ter i also i die G te die Gutheit i versus Modern English i good the good the goods i also i goodness i With regard to this phenomenon two issues deserve attention first of all the historical development of adjectives as nouns in English and secondly their linguistic classification The merit of this study is that it undertakes the first detailed analysis of this phenomenon with the aid of corpus material The investigation leads to intriguing conclusions that combine several linguistic levels of description and that break with traditional concepts of rigid word classes in favor of a theory of degrees of adjectiviness and nouniness
