The World of South African Music Christine Lucia, 2009-03-26 The present Reader is a selection of texts on South African music which are chosen not only for their importance or the frequency of citations but with the express purpose of providing the reader with a deep understanding of the music itself Consequently there are readings that are chosen because they have been influential but there are also many which though published have not enjoyed very wide circulation There are those which are of obvious historic interest and others which speak to contemporary issues Among other things the volume provides an excellent sense of the varying ideologies and approaches that determine the relationship between author and subject The reader is indispensable to scholars and enthusiasts of South African music and it is of great interest to ethnomusicologists more generally It is also an excellent resource for those who do not have immediate access to harder to find articles and is perhaps most vital to those who are looking to find a way into the world of South African music

Dictionary Catalog of the Music Collection New York Public Library. Reference Department, 1964 Studying Congregational Music Andrew Mall, Jeffers Engelhardt, Monique M. Ingalls, 2021-02-15 Studying the role of music within religious congregations has become an increasingly complex exercise The significant variations in musical style and content between different congregations require an interdisciplinary methodology that enables an accurate analysis while also allowing for nuance in interpretation This book is the first to help scholars think through the complexities of interdisciplinary research on congregational music making by critically examining the theories and methods used by leading scholars in the field An international and interdisciplinary panel of contributors introduces readers to a variety of research methodologies within the emerging field of congregational music studies Utilizing insights from fields such as communications studies ethnomusicology history liturgical studies popular music studies religious studies and theology it examines and models methodologies and theoretical perspectives that are grounded in each of these disciplines In addition this volume presents several key issues to ground these interpretive frameworks in the context of congregational music studies These include topics like diaspora ethics gender and migration This book is a new milestone in the study of music amongst congregations detailing the very latest in best academic practice As such it will be of great use to scholars of religious studies music and theology as well as anyone engaging in ethnomusicological studies more generally **The Bookseller** , 1901 Vols for 1871 76 1913 14 include an extra number The Christmas bookseller separately paged and not included in the consecutive numbering of the regular series **Railway Signal** , 1888 **Bury Me at the Marketplace** N. Chabani Manganyi, David Attwell, 2009-11-01 When Chabani Manganyi published the first edition of selected letters twenty five years ago as a companion volume to *Exiles and Homecomings A Biography of Esia Mphahlele* the idea of Mphahlele's death was remote and poetic The title *Bury Me at the Marketplace* suggested that immortality of a kind awaited Mphahlele in the very coming and going of those who remember him and whose lives he touched It suggested too the energy and magnanimity of Mphahlele the man whose personality and intellect as a writer and educator would carve an indelible place for him in South Africa's public sphere That death has now come and we mourn it Manganyi's words at the time have acquired a new significance in the symbolic marketplace he noted the drama of life continues relentlessly and the silence of death is unmasked for all time The silence of death is certainly unmasked in this volume in its record of Mphahlele's rich and varied life his private words his passions and obsessions his arguments his loves hopes achievements and yes even some of his failures Here the reader will find many facets of the private man translated back into the marketplace of public memory Despite the personal nature of the letters the further horizons of this volume are the contours of South Africa's literary and cultural history the international affiliations out of which it has been formed particularly in the diaspora that connects South

Africa to the rest of the African continent and to the black presence in Europe and the United States This selection of Mphahlele's own letters has been greatly expanded it has also been augmented by the addition of letters from Mphahlele's correspondents among them such luminaries as Langston Hughes and Nadine Gordimer It seeks to illustrate the networks that shaped Mphahlele's personal and intellectual life the circuits of intimacy intellectual inquiry of friendship scholarship and solidarity that he created and nurtured over the years The letters cover the period from November 1943 to April 1987 forty four of Mphahlele's mature years and most of his active professional life The correspondence is supplemented by introductory essays from the two editors by two interviews conducted with Mphahlele by Manganyi and by Attwell's insightful explanatory notes
