Incomplete Streets Stephen Zavestoski, Julian Agyeman, 2014-08-27 The Complete Streets concept and movement in urban planning and policy has been hailed by many as a revolution that aims to challenge the auto normative paradigm by reversing the broader effects of an urban form shaped by the logic of keeping automobiles moving By enabling safe access for all users Complete Streets promise to make cities more walkable and livable and at the same time more sustainable This book problematizes the Complete Streets concept by suggesting that streets should not be thought of as merely physical spaces but as symbolic and social spaces When important social and symbolic narratives are missing from the discourse and practice of Complete Streets what actually results are incomplete streets The volume questions whether the ways in which complete streets narratives policies plans and efforts are envisioned and implemented might be systematically reproducing many of the urban spatial and social inequalities and injustices that have characterized cities for the last century or more From critiques of a mobility bias rooted in the neoliberal foundations of the Complete Streets concept to concerns about resulting environmental gentrification the chapters in Incomplete Streets variously call for planning processes that give voice to the historically marginalized and more broadly that approach streets as dynamic fluid and public social places This interdisciplinary book is aimed at students researchers and professionals in the fields of urban geography environmental studies urban planning and policy transportation planning and urban sociology

The New Urban Crisis Richard Florida, 2017-04-11 In recent years the young educated and affluent have surged back into cities reversing decades of suburban flight and urban decline And yet all is not well Richard Florida argues in The New Urban Crisis Florida one of the first scholars to anticipate this back to the city movement in his groundbreaking The Rise of the Creative Class demonstrates how the same forces that power the growth of the world s superstar cities also generate their vexing challenges gentrification unaffordability segregation and inequality Meanwhile many more cities still stagnate and

middle class neighborhoods everywhere are disappearing Our winner take all cities are just one manifestation of a profound crisis in today s urbanized knowledge economy A bracingly original work of research and analysis The New Urban Crisis offers a compelling diagnosis of our economic ills and a bold prescription for more inclusive cities capable of ensuring growth and prosperity for all

Dynamic Shipping and Port Development in the Globalized Economy Paul Yae-Woo Lee, Kevin Cullinane, 2016-04-29 This two volume book presents an in depth analysis of many of the most important issues facing today s shipping and port sectors Volume 1 of Dynamic Shipping and Port Development in the Globalized Economy focuses on the application of theory to practice in Maritime Logistics

Comparing Post War Japanese and Finnish Economies and Societies Yasushi Tanaka, Toshiaki Tamaki, Jari Ojala, Jari Eloranta, 2014-11-13 This book compares two countries with striking parallels in economic and political outcomes yet with some distinct features in terms of institutional structures relative size and culture Therefore this book forms a fruitful platform for the study of the similarities and differences in the economic and societal development of Japan and Finland Despite their geographic distance from one another and the aforementioned differences both countries experienced rather similar economic and societal development patterns after the Second World War The study of these societies both individually and through commonalities will provide a unique perspective on the emergence of modern economies and institutions The book provides comprehensive coverage on issues such as welfare state formation and society security and military spending education system industrial development international trade governmental economic policies energy solutions and bubbles and their collapse thus issues typical for these countries as well as most modern states studied from a longitudinal perspective The book aims to answer a fundamental question in social science Why do there seem to be common trends and developmental paths among countries differing in size culture and economic structure This book will provide insights for those seeking to decipher how the developments in their own countries came about and where they may be headed to

Territorial Cohesion in Rural Europe Andrew Copus, Philomena de Lima, 2014-08-13 This book reflects on how the economies social characteristics ways of life and global relationships of rural areas of Europe have changed in recent years This reveals a need to refresh the concepts we use to understand measure and describe rural communities and their development potential This book argues that Europe has outgrown many of the stereotypes usually associated with it with substantial implications for European Rural Policy Rural structural change and its evolving geography are portrayed through regional typologies and the concept of the New Rural Economy Demographic change migration business networks and agricultural restructuring are each explored in greater detail Implications for equality and social exclusion and recent developments in the field of governance are also considered Despite being a subject of active debate interventions in the fields of rural and regional development have failed to adapt to changing realities and have become increasingly polarized This book argues that rural regional policy needs to evolve in order to address the current complex reality partially reformulating territorial or place based approaches and the New Rural Paradigm following a

set of principles termed Rural Cohesion Policy
