Mix,2007-12 Using experimental style as a framework for close readings of writings produced by late twentieth century North American women Deborah Mix places Gertrude Stein at the center of a feminist and multicultural account of twentieth century innovative writing Her meticulously argued work maps literary affiliations that connect Stein to the work of Harryette Mullen Daphne Marlatt Betsy Warland Lyn Hejinian and Theresa Hak Kyung Cha By distinguishing a vocabulary which is flexible evolving and simultaneously individual and communal from a lexicon which is recorded fixed and carries the burden of masculine authority Mix argues that Stein s experimentalism both enables and demands the complex responses of these authors Arguing that these authors have received relatively little attention because of the difficulty in categorizing them Mix brings

the writing of women of color lesbians and collaborative writers into the discussion of experimental writing Thus rather than exploring conventional lines of influence she departs from earlier scholarship by using Stein and her work as a lens through which to read the ways these authors have renegotiated tradition authority and innovation Building on the tradition of experimental or avant garde writing in the United States Mix questions the politics of the canon and literary influence offers close readings of previously neglected contemporary writers whose work doesn't fit within conventional categories and by linking genres not typically associated with experimentalism lyric epic and autobiography challenges ongoing reevaluations of innovative writing

A Measured Life Richard Hoggart, 2020-03-06 Richard Hoggart's book *The Uses of Literacy* established his reputation as a uniquely sensitive and observant chronicler of English working class life. This pioneering work, first published in 1957, examines changes in the life and values of the English working class in response to mass media. It maps out a new methodology in cultural studies based around interdisciplinary and a concern with how texts, in this case mass publications, are stitched into the patterns of lived experience. Mixing personal memoir with social history and cultural critique, *The Uses of Literacy* anticipates recent interest in modes of cultural analysis that refuse to hide the author behind the mask of objective, social scientific technique. In its method and in its rich accumulation of the detail of working class life, this volume remains useful and absorbing.
