

Moviegoers

A moviegoer is a person who goes to watch movies. In order to know a moviegoer, there is a need to classify the types of movies these individuals are interested in. These movies can be categorized in the genres of informational, drama, action, adventure, epic, horror, crime, and musical. Some categories of movies are interrelated - for example, crime and action movies.

Moviegoers can be classified by the genre of the movies they watch, though some individuals enjoy watching movies from more than one genre. More precisely, we can also classify moviegoers according to their behavior while viewing their movies of choice.

The actions of moviegoers may prove to be annoying and irritating, at the same time causing distraction to those who are attentive and want to concentrate on the details of a movie. The first type is the kind of people who laugh at seemingly nothing. Anything in a movie, even somebody walking, tickles them inside and they laugh out aloud. This type of moviegoer causes a lot of distraction to the people watching the movie near them in cinemas or home environments. They may occasionally make apologies only to break their promise of keeping silent (March, 2009).

There also exists the talkative type. These people come to watch a movie, but instead continue talking about issues that are not related to the movie. They may talk about school, work, their jobs, and recent happenings regardless of those around them.
