After gain such insight into back grounds I believe that it is detrimental for every man that was to govern or shepherd a flock to be well equipped in the area of biblical back grounds. Although it is not a sufficient, it is very necessary to gain the understanding that comes from the text. Background is also another crucial hermeneutical tool. That can give us proper insight to the true understanding of what the author was trying to say to the readers of that day. And if the readers in this modern day can get the real message that the original author was trying to convey to the modern day audience.

I believe that pastors and teachers should get the highest level of back ground although history is not the only way to interpret the passages of in scripture but the background from non-canonical and socio-cultural standpoints can give the readers a better way to look at how and why the scriptures were constructed and format of the passages. These studies of backgrounds just show us why these passages were spoken to the specific passages and then allow the teachers to correctly apply it to their flock.

But first pastors/ teacher need to have the most holistic meaning before they can deliver a message of scripture because it is God holy and divine word and they have to be careful on what they are trying to say because if they do not understand what the author is trying to say to the specific audience then the message cannot be properly deliver to Gods intended audience, and then because false teaching and sends the followers of Christ astray because they did not have the proper meaning because there was no broad study of why this passage was written and why it was constructed and formatted in that fashion. . There are many ways that the Backgrounds can help and assist teaching and pastoring ministries. This mostly helps with the leaders getting a better understand f the overall meaning in the passages of the bible. And the only way is use hermeneutical methods. A hermeneutical tool can be backgrounds and background is not just the historical even but it's also talking about the culture at the time and the perception of the culture to the event and how they reacted to events. These different uses and aspects of background can just make it easier to grasp the meaning of the author in the passage.

If the leaders of the teaching and pastoral ministries want to give what God was trying to tell HIS people then they must do the research and focus on the background and help shape the meaning of the book or assage. And then they will interpret the context of which the passage was written and why they needed to hear the passage. And then the ministries can contextualize the passage in the proper manner and make it applicable to this day in age This helps because readers normally contemporize the bible and forget that there was an original audience that were not living in the

work now being published in the field's independent journals **Conceptions of Literacy** Meaghan Brewer, 2020-05-01 Addressing the often fraught and truncated nature of educating new writing instructors *Conceptions of Literacy* proposes a theoretical framework for examining new graduate student instructors' preexisting attitudes and beliefs about literacy. Based on an empirical study, author Meaghan Brewer conducted with graduate students teaching first-year composition for the first time, *Conceptions of Literacy* draws on narratives, interviews, and classroom observations to describe the conceptions of literacy they have already unknowingly established and how these conceptions impact the way they teach in their own classrooms. Brewer argues that conceptions of literacy undergird the work of writing instructors and that many of the anxieties around composition studies' disciplinary status are related to the differences perceived between the field's conceptions of literacy and those of the graduate instructors and adjuncts who teach the majority of composition courses. *Conceptions of Literacy* makes practical recommendations for how new graduate instructors can begin to perceive and interrogate their conceptions of literacy, which while influential are often too personal to recognize.
