Summary of David R. Hamilton's How Your Mind Can Heal Your Body Everest Media, 2022-03-27T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 I d like to thank my publisher Hay House who have supported me for many years through my development as an author and

have always enabled me to write about the subjects I've wanted to. I also thank all the people who sent me stories of their own uses of visualization.

2 The mind impacts the body. Thoughts, feelings, ideas, imagination, beliefs, and expectations produce a series of chemical and biological changes that result in a physical effect. The brain can't tell the difference between what's real and what someone imagines.

3 The book shares the scientific evidence for the mind-body connection from the impact of attitude on aging, the immune system, and the heart to how the placebo effect works and several examples of it. It also teaches you how to visualize.

4 The mind can play a significant role in healing, and it is important to recognize that it is not a substitute for medical advice or interventions. We should use our mind as support for natural healing processes as well as support for drug and other medical interventions.

The Healing Brain Emrika Padus, 1986 **The Healing Mind** Emrika Padus, 1989 *Change Your Mind, Heal Your Body* Anna Parkinson, 2014-05-13

Your body is trying to tell you what's wrong. A successful journalist turned healer describes her innovative system of healing through the lens of her own self-healing journey. Parkinson was a busy workaholic reporter who yearned to leave her stressful job when she was diagnosed with a mysterious tumor behind her carotid artery. At first she pursued the traditional medical route, but after a series of frustrating mishaps with the medical system, she began to investigate alternative healing. Her search brought her into contact with such venerable healing philosophies as the ancient Hindu chakra and the simpler Hawaiian system. She eventually met Martin Brofman, founder of Body Mirror Healing, who taught her how to delve into her emotional blockages underpinning the illness. The breakthrough came when she realized that her body was communicating to her through the message of cancer. She ultimately developed a series of simple exercises shared in the book that help people better listen to their bodies and bring the energy needed to wipe away disease.
