Learning Needs

What learning needs did I identify through Practice Reflection?

1. Learn more about providing culturally sensitive care.
2. Learn about how social media can affect the nurse-client relationship.
3. Understand more about the increase in sexually transmitted diseases and how to address this concern.

Learning Goal #1

What do I want to learn?

Which practice document do I want to use?

Culturally Sensitive Care practice guideline

As a Nurse Practitioner working in a community health centre serving a diverse population, I want to identify resources to support staff in providing culturally sensitive care. I will achieve this goal by October 30.

Need help creating a goal? Review the *Developing SMART Learning Goals* guide.

Your learning goal must be based on your current practice setting and one of the College's practice documents.

Goal #1: Activities and Timeframes

How am I going to achieve my goal?

1. By January 15, I will review the *Culturally Sensitive Care* practice guideline.
2. By April 1, I will complete a literature review on this topic using the CINAHL database in the workplace library.
3. By June 1, I will contact pastoral services to request a fall presentation for staff to include information about providing culturally sensitive care and client cultures we commonly encounter in practice.
4. By August, I will collaborate with the rest of the team to create a resource binder about providing culturally sensitive care for staff using relevant resources from the literature review and the organization.
5. By October 30, I will reflect on and document my own culture, values, beliefs and biases, and consider how this may affect my approach to client care.
