Lee Kuan Yew's Strategic Thought Cheng Guan Ang, 2013 Lee Kuan Yew, as the founding father of independent Singapore, has had an enormous impact on the development of Singapore and of Southeast Asia more generally. Lee Kuan Yew Graham Allison, Robert D. Blackwill, Ali Wyne, 2020-09-22 CNN Book of the Week Featuring a foreword by Henry Kissinger. The grand strategist and founder of modern Singapore offers key insights and opinions on globalization, geopolitics, economic growth, and democracy in a series of interviews with the author of *Destined for War* and others. If you are interested in the future of Asia, which means the future of the world, you've got to read this book. Fareed Zakaria, CNN. When Lee Kuan Yew speaks, presidents, prime ministers, diplomats, and CEOs listen. Lee, the founding father of modern Singapore and its prime minister from 1959 to 1990, has honed his wisdom during more than fifty years on the world stage. Almost single-handedly responsible for transforming Singapore into a Western-style economic success, he offers a unique perspective on the geopolitics of East and West. American presidents from Richard Nixon to Barack Obama have welcomed him to the White House. British prime ministers from Margaret Thatcher to Tony Blair have recognized his wisdom, and business leaders from Rupert Murdoch to Rex Tillerson, CEO of Exxon Mobil, have praised his accomplishments. This book gathers key insights from interviews, speeches, and Lee's voluminous published writings and presents them in an engaging question-and-answer format. Lee offers his assessment of China's future, asserting among other things that China will want to share this century as co-equals with the U.S. He affirms the United States' position as the world's sole superpower but expresses dismay at the vagaries of its political system. He offers strategic advice for dealing with China and goes on to discuss India's future, Islamic terrorism, economic growth, geopolitics, and globalization, and democracy. Lee does not pull his punches, offering his unvarnished opinions on multiculturalism, the welfare state, education, and the free market. This little book belongs on the reading list of every world

leader **Lee Kuan Yew's Educational Legacy** Oon Seng Tan, Ee Ling Low, David Hung, 2017-03-06 The late Mr Lee Kuan Yew 1923-2015 laid the foundations for the creation of a first world education system in Singapore. Like many other issues concerning the country, his ideas for education were transported in a red box which he took with him wherever he went, even up to his last days. Inside it was always something designed to help create a better life for all Singaporeans. The editors of this volume were inspired by the idea of Mr Lee's red box and by the Founding Father's selfless drive to continuously improve the country he loved. As such, the book explores in detail Mr Lee's plans, including chapters on Education, The Man and His Ideas, Foundational Pillars of Singapore's Education, Education for Nationhood and Nation Building, and 21st Century Readiness and Adaptability. The chapters also include the author's visions, no matter how great or small, for the future of education in Singapore. They explore how Mr Lee's educational policies resulted in a system that attracts the right and best candidates to become teachers, that forms them into effective teachers, specialists and leaders, that ensures they and the education system are able to deliver the best possible learning for every child, and that establishes a legacy that has allowed the education system to continue to move forward while tackling the challenges of its success. From the little red box came the ideas that led to the country's meteoric rise. Likewise, the editors hope this book will lead to a brighter future in education. *Lee Kuan Yew Through The Eyes Of Chinese Scholars* Chen Ning Yang, Ying-shih Yu, Gungwu Wang, 2016-12-27 Lee Kuan Yew through the Eyes of Chinese Scholars is a compilation of essays by highly respected Chinese scholars in which they evaluate the life work and philosophy of Lee Kuan Yew, founding Prime Minister of Singapore. Presenting a range of views from a uniquely Chinese/Asian perspective, this book provides valuable insights for those who wish to gain a fuller and deeper understanding of Lee Kuan Yew, the man as well as Singapore, his nation. Marking the momentous event of his death as well as the 50th anniversary of Singapore's independence in 2015, this compilation reflects both the high regard in which Lee Kuan Yew is held across the Chinese speaking world as well as the reservations of a few. The contributors are all ethnic Chinese from different academic disciplines, ranging from a Nobel laureate in physics, Chen Ning Yang, to historians, economists and political scientists. They include Singaporeans such as Wang Gungwu and Chew Cheng Hai, as well as scholars from China, the US and Hong Kong such as Yongnian Zheng, Ying Shih Yu, Lawrence Lau and Hang Chi Lam, among others. Originally published in Chinese, this English translation makes the material accessible to a wider English reading audience. **The Ruling Elite of Singapore** Michael D. Barr, 2014-01-17 Michael Barr explores the complex and covert networks of power at work in one of the world's most prosperous countries, the city state of Singapore. He argues that the contemporary networks of power are a deliberate project initiated and managed by Lee Kuan Yew, former prime minister and Singapore's founding father, designed to empower himself and his family. Barr identifies the crucial institutions of power, including the country's sovereign wealth funds and the government-linked companies, together with five critical features that form the key to understanding the nature of the networks. He provides an assessment of possible shifts of power within the elite in the wake

Sunzi's *The Art of War* and attempts to offer an inside out cultural synthesis of classical and modern Chinese thought as a proxy of their operational code beyond the standard clichés about Confucian and Daoist thought. He builds on Jervis' perception and misperception as well as Alastair Johnston's cultural realism. Readers will benefit from a culturally Chinese western educated and politically neutral understanding of China as China. The Deer and the Dragon Donald K Emmerson, 2020-08-04 Will the nations of Southeast Asia maintain their strategic autonomy or are they destined to become a subservient periphery of China? This book's expert authors address this pressing question in multiple contexts. What clues to the future lie in the modern history of Sino Southeast Asian relations? How economically dependent on China has the region already become? What do Southeast Asians think of China? Does Beijing view the region in proprietary terms as its own backyard? How has the relative absence distance and indifference of the United States affected the balance of influence between the US and China in Southeast Asia? The book also explores China's moves and Southeast Asia's responses to them. Does China's Maritime Silk Road through Southeast Asia herald a Pax Sinica across the region? How should China's expansionary acts in the South China Sea be understood? How have Southeast Asian states such as Vietnam and the Philippines responded? How does Singapore's China strategy compare with Indonesia's? How relevant is the Association of Southeast Asian Nations? To what extent has China tried to persuade the overseas Chinese in Southeast Asia to identify with the motherland and support its aims? How are China's deep involvements in Cambodia and Laos affecting the economies and policies of those countries? This rich collection writes renowned author journalist Nayan Chanda answers these and other questions while offering fresh insights and new information and analyses to explain Southeast Asia's relations with China.

The First Wave Loke Hoe Yeong, 2019-09-30 Based on extensive interviews and archival material *The First Wave* tells the story of the opposition in Singapore in its critical first thirty years. In Parliament Democratisation has been described to occur in waves. The first wave of a democratic awakening in post independence Singapore began with J B Jeyaretnam's victory in the Anson by election of 1981. That built up to the 1984 general election the first of many to be called a watershed in which Chiam See Tong was also elected in Potong Pasir. After their successes in 1991 the opposition began dreaming of forming the government. But their euphoria was short lived. Serious fault lines in the leading Singapore Democratic Party SDP rose to the surface almost immediately after the opposition victories of 1991 and the party was wiped out of Parliament by 1997. The opposition spent the next decade experimenting with coalition arrangements to work their way back to victory.
