Leica Manual Willard Morgan:

The Leica Manual Willard Detering Morgan, Henry M. Lester, 1954 **Leica M Compendium** Jonathan Eastland, 1994
The Leica M system has been with us since 1954. It rapidly became and has remained the favorite instrument of photographers especially photojournalists who like Henri Cartier Bresson seek to catch life in the act to record the decisive moment. In this **Leica M Compendium** Jonathan Eastland describes the whole Leica M system from his experience as a professional photographer. He explains how to use, enjoy and get the best out of the cameras and lenses regardless of age. The latest lenses can be used on the earliest cameras and vice versa and the Visoflex although no longer made is now much easier to use with the M6 and its TTL metering. Advice on planning and shooting a story with the Leica and extensive tables of technical data complete this ideal companion for the practical Leica M photographer as well as for the Leica collector and enthusiast.

Chapters present such topics as videography drone photography underwater photography crime scene photography autopsy photographs fire documentation forensic odontology and more. The book closes with coverage of courtroom displays presenting imaging evidence and expert witness testimony in the courtroom. **Handbook of Forensic Photography** is a must have reference for experienced crime scene photographers death and crime scene investigators police and forensic professionals including medical examiners odontologists engineers and forensic anthropologists who frequently need to capture investigative photographs in the course of investigations.

Photo-Attractions Ajay Sinha, 2022-11-11. In Spring 1938 an Indian dancer named Ram Gopal and an American writer photographer named Carl Van Vechten came together for a photoshoot in New York City. Ram Gopal was a pioneer of classical Indian dance and Van Vechten was reputed as a prominent white patron of the African American movement called

the Harlem Renaissance Photo Attractions describes the interpersonal desires and expectations of the two men that took shape when the dancer took pose in exotic costumes in front of Van Vechten's Leica camera. The spectacular images provide a rare and compelling record of an underrepresented history of transcultural exchanges during the interwar years of early 20th century made briefly visible through photography. Art historian Ajay Sinha uses these hitherto unpublished photographs and archival research to raise provocative and important questions about photographic technology, colonial histories, race, sexuality and transcultural desires. Challenging the assumption that Gopal was merely objectified by Van Vechten's Orientalist gaze, he explores the ways in which the Indian dancer co-authored the photos. In Sinha's reading, Van Vechten's New York studio becomes a promiscuous contact zone between world cultures where a photo erotic triangle is formed between the American photographer, Indian dancer and German camera. A groundbreaking study of global modernity, Photo Attractions brings scholarship on American photography, literature, race and sexual economies into conversation with work on South Asian visual culture, dance and gender. In these remarkable historical documents, it locates the pleasure taken in cultural difference that still resonates today.
