satellite and put the first man into Earth orbit would surely achieve before the Americans. However, the ingenuity, passion, and sacrifice of thousands of ordinary people from all walks of life enabled the space program to meet this extraordinary goal. This is the story of fourteen of those men and women who worked behind the scenes without fanfare or recognition to make the Apollo missions successful.

**Neil Armstrong** Jan Barbre, 2014-07-08. Much has been written about Neil Armstrong, America's modern hero and history's most famous space traveler. Yet shy of fame and never one to steal the spotlight, Armstrong was always reluctant to discuss his personal side of events. Here for the first time is the definitive story of Neil's life of flight he shared for five decades with a trusted friend, Jay Barbre. Working from 50 years of conversations he had with Neil from notes, interviews, NASA spaceflight transcripts, and remembrances of those Armstrong trusted, Barbre writes about Neil's three passions: flight, family, and friends. This is the inside story of Neil Armstrong from the time he flew combat missions in the Korean War and then flew a rocket plane called the X-15 to the edge of space to when he saved his Gemini 8 by flying the first emergency return from Earth orbit and then flew Apollo Eleven to the moon's Sea of Tranquility. Together, Neil and Jay discussed everything from his love of flying to the war years and, of course, his time in space. The book is full of never-before-seen photos and personal details written down for the first time, including what Armstrong really felt when he took that first step on the moon, what life in NASA was like, his relationships with the other astronauts, and what he felt the future of space exploration should be. As the only reporter to have covered all 166 American astronaut flights and moon landings, Jay knows these events intimately. Neil Armstrong himself said Barbre is history's most experienced space journalist. He is exceptionally well qualified to recall and write the events and emotions of our time. Through his friendship with Neil and his dedicated research, Barbre brings us the most accurate account of his friend's life of flight; the book he planned for twenty years.

**Emerging Transformations in Tourism and Hospitality** Anna Farmaki, Nikolaos Pappas, 2021-12-19. This significant and timely book critically discusses the effects of emerging trends and shifting dynamics on the tourism and hospitality industry at local, regional, national, and international levels in a holistic manner. This book offers a multi-disciplinary and inter-disciplinary approach and examines emerging topics such as technology and disruptive economies, as well as the Covid-19 pandemic that are likely to change the future of the industry, either positively or negatively. The book thus advances the knowledge surrounding emergent controversies pertaining to tourism and hospitality, including the growth of alternative business models, e.g., sharing economy business models, travel in light of climate change, and human resource ethics, given the increasing adoption of artificial intelligence, AI, data, and algorithms. Offering a platform for the critical discussion of pertinent transformations and, as such, providing theoretical and practical insights, this book will be of great value to destination planners, policymakers, industry practitioners, educators, and upper-level students of tourism and hospitality.
