politically vibrant urban center Thompson's account of the post World War II fate of Detroit casts new light on contemporary urban issues including white flight police brutality civic and shop floor rebellion labor decline and the dramatic reshaping of the American political order Throughout the author tells the stories of real events and individuals including James Johnson Jr who after years of suffering racial discrimination in Detroit's auto industry went on trial in 1971 for the shooting deaths of two foremen and another worker at a Chrysler plant Whose Detroit brings the labor movement into the context of the literature of Sixties radicalism and integrates the history of the 1960s into the broader political history of the postwar period Urban labor political and African American history are blended into Thompson's comprehensive portrayal of Detroit's reaction to pressures felt throughout the nation With deft attention to the historical background and preoccupations of Detroit's residents Thompson has written a biography of an entire city at a time of crisis **People of the State of Illinois**
