Assad,Saul I. Gass,2011-06-28 Profiles in Operations Research Pioneers and Innovators recounts the development of the field of Operations Research OR the science of decision making The book traces the development of OR from its military origins to a mature discipline that is recognized worldwide for its contributions to managerial planning and complex global operations Over the past six decades OR analyses have impacted our daily lives when making an airline or hotel reservation waiting in line at a bank getting the correctly blended fuel at the gas station and ensuring that the book you are holding arrived at its destination on time OR originated in the late 1930s when British scientists from various disciplines joined Royal Air Force officers to determine the most effective way to employ new radar technology for intercepting enemy aircraft During World War II similar applied research groups were formed to study test and evaluate military operations on both sides of the Atlantic Their work resulted in great improvements OR helped the Allies win the war The scientific field that emerged from these studies was called operational research in the U K and operations research in the U S Today OR provides a broad and powerful science to aid decision making Profiles describes the lives and contributions of 43 OR pioneers and innovators and

relates how these individuals with varying backgrounds and diverse interests were drawn to the nascent field of OR. The profiles also describe how OR techniques and applications expanded considerably beyond the military context to find new domains in business and industry. In addition to their scientific contributions, these profiles capture the life stories of the individuals interwoven with personal tales, vivid vignettes, family backgrounds, and views of the mission and future of OR. Collectively, the profiles recount the fascinating story of the growth and development of a field enriched by the convergence of different disciplines.

From the Reviews: Profiles in Operations Research: Pioneers and Innovators. Book Review by Nigel Cummings, U.K. OR Society's e-journal Inside OR, Sept 2011. I can thoroughly recommend this book.
