

MUSIC INTERVALS THEORY 101

MUSEGARDENRESOURCES.COM

01

Intervals are the distance between 2 notes

2

The interval number is determined by the distance of the musical letters

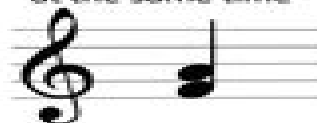

03

There are 2 types of intervals: Melodic and Harmonic intervals

A **Melodic interval** is when the notes are played one after the other

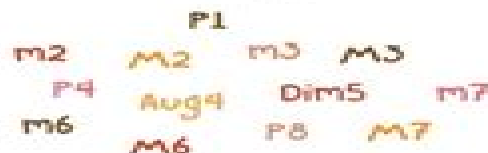

A **Harmonic interval** is when the notes are played at the same time

04

Intervals can be identified as major, minor, perfect, augmented or diminished

05

Each interval is made up of a specific number of half steps and/or whole steps

A **half step (semi-tone)** is when you go up or down 1 step to the very next key (doesn't matter if it is a white or black key). A **whole step (whole-tone)** is when you go up or down 2 steps (again, doesn't matter if it is a white or black key)
