

New User Setup Guide

Call Pilot Information

Call Pilot is the name of the new voice messaging system.

A Call Pilot user's manual (pdf format) is available through a link at:

<http://www.is.mines.edu/telecomm/Staff/voicemail.shtm>.

*Not all features covered in the manual are available to Colorado School of Mines users.

How to get Help:

Call Pilot gives voice prompts to guide you through what you are doing...just stay on the line and it will eventually tell you what response it expects.

You can press * for context sensitive help at any time while you are logged into your mailbox.

Setting up Call Pilot & Logging in for the First Time

(Experience has shown that users are more successful in doing this if they read through this section of the directions and make sure they understand before beginning.)

- When asked for "**mailbox**" by Call Pilot, respond with your 4 digit extension number.
- "**Password**" is not a word, but a series of numbers. In Call Pilot, you have a temporary password for (new users) and are required to change it to a password of your choosing the first time you log in.
- Call Pilot uses the term "number sign" rather than "pound sign" for #.

Before you begin, think of a series of numbers you would like to use for your password and write it down. The password must be a minimum of 6 digits. (If the system thinks the one you choose is not secure it will tell you. For example, we know that 111111 and 123456 are not acceptable.)

The *password* I am choosing is _____.

Your *temporary* password is 88 followed by your 4 digit extension number.

My *temporary* password is 88_____.

- Dial 3001
- You will hear "mailbox?" Put in your extension number, followed by #.
- You will hear "password?" Put in your *temporary* password (written above), followed by #.
- Then follow directions. When you are asked for "old password", use the same temporary one you just used.
- "New Password" is the one you chose yourself and wrote down above.
- If you get rattled, just hang up and try again.
