Encyclopedia Of Global Archaeology:

Encyclopedia of Global Archaeology, 2013-12-04 Archaeology the study of human cultures through the analysis and interpretation of artefacts and material remains continues to captivate and engage people on a local and global level Internationally celebrated heritage sites such as the pyramids both Egyptian and Mayan Lascaux caves and the statues of Easter Island provide insights into our ancestors and their actions and motivation But there is much more to archaeology than famous sites Ask any archaeologist about their job and they will touch on archaeological theory chemistry geology history classical studies museum studies ethical practice and survey methods along with the analysis and interpretation of artefacts and sites Archaeology is a much broader subject than its public image and branches into many other fields in the social and physical sciences This multi volume work provides a comprehensive and systematic coverage of archaeology that is unprecedented not only in terms of the use of multi media but also in terms of content It encompasses the breadth of the subject along with key aspects that are tapped from other disciplines It includes all time periods and regions of the world and all stages of human development Mostly importantly this encyclopedia includes the knowledge of leading scholars from around the world The entries in this encyclopedia range from succinct summaries of specific sites and the scientific aspects of archaeological enquiry to detailed discussions of archaeological concepts theories and methods and from investigations into the social ethical and political dimensions of archaeological practice to biographies of leading archaeologists from throughout the world The different forms of archaeology are explored along with the techniques used for each and the challenges concerns and issues that face archaeologists today The Encyclopedia of Global Archaeology has two outstanding innovations The first is that scholars were able to submit entries in their own language Over 300 000 words have been translated from French Spanish Portuguese German Italian Japanese Turkish and Russian Many of these entries are by scholars who are publishing in English for the first time This compendium is both a print reference and an online reference work The encyclopedia s second major innovation is that it harnesses the capabilities of an online environment enhancing both the presentation and dissemination of information Most particularly the continuous updating allowed by an online environment should ensure that the Encyclopedia of Global Archaeology is a definitive reference work for archaeology and archaeologists

The Routledge Handbook of Global Historical Archaeology Charles E. Orser, Jr., Andres Zarankin, Pedro Funari, Susan Lawrence, James Symonds, 2020-07-26 The Routledge Handbook of Global Historical Archaeology is a multi authored compendium of articles on specific topics of interest to today s historical archaeologists offering perspectives on the current state of research and collectively outlining future directions for the field The broad range of topics covered in this volume allows for specificity within individual chapters while building to a cumulative overview of the field of historical archaeology as it stands and where it could go next Archaeological research is discussed in the context of current sociological concerns different approaches and techniques are assessed and potential advances are

posited This is a comprehensive treatment of the sub discipline engaging key contemporary debates and providing a series of specially commissioned geographical overviews to complement the more theoretical explorations This book is designed to offer a starting point for students who may wish to pursue particular topics in more depth as well as for non archaeologists who have an interest in historical archaeology Archaeologists historians preservationists and all scholars interested in the role historical archaeology plays in illuminating daily life during the past five centuries will find this volume engaging and enlightening

Global Social Archaeologies Koji Mizoguchi,Claire E Smith,2019-06-27 Global Social Archaeologies contributes to the active engagement of contemporary social archaeology through addressing issues such as postcolonialism community heritage and Indigenous rights It addresses the major challenge of breaking down global divides especially in relation to fundamental human rights inequality and inequities of wealth power and access to knowledge This authoritative volume authored by the current and past presidents of the World Archaeological Congress introduces readers to the various theoretical and methodological tools available for the investigation of the past Taking into account the implications for contemporary societies it offers a new framework for social archaeologies in a globalised world By combining new data from their research with an innovative synthesis and analysis of leading research by others the authors have developed fresh conceptualisations and understandings of archaeology as a social practice and of the ways in which it simultaneously straddles the past present and future Exploring a range of case studies and enhanced by a wealth of illustrations Global Social Archaeologies highlights a new approach to archaeology one that places human rights at the core of archaeological theory and practice

The Palgrave Handbook of Global Sustainability Robert Brinkmann,2023-04-04 The field

of sustainability continues to evolve as a discipline The world is facing multiple sustainability challenges such as climate change water depletion ecosystem loss and environmental racism The Handbook of Sustainability will provide a comprehensive reference for the field that examines in depth the major themes within what are known as the three E s of sustainability environment equity and economics These three themes will serve as the main organizing body of the work In addition the work will include sections on history and sustainability major figures in the development of sustainability as a discipline and important organizations that contributed or that continue to contribute to sustainability as a field The work is explicitly global in scope as it considers the very different issues associated with sustainability in the global north and south

The Oxford Handbook of Historical Ecology and Applied Archaeology Christian Isendahl,Daryl Stump,2019-01-10 The Oxford Handbook of Historical Ecology and Applied Archaeology presents theoretical discussions methodological outlines and case studies describing the field of overlap between historical ecology and the emerging sub discipline of applied archaeology to highlight how modern environments and landscapes have been shaped by humans Historical ecology is based on the recognition that humans are not only capable of modifying their environments but that all environments on earth have already been directly or indirectly modified This includes anthropogenic climate change widespread deforestations and species extinctions but also very local alterations the effects of which may last a few years or may have legacies lasting centuries or more With contributions from anthropologists archaeologists human geographers and historians this volume focuses not just on defining human impacts in the past but on the ways that understanding these changes can help inform contemporary practices and development policies Some chapters present examples of how ancient or current societies have modified their environments in sustainable ways while others highlight practices that had unintended long term consequences The possibilities of learning from these practices are discussed as is the potential of using the long history of human resource exploitation as a method for building or testing models of future change The volume offers overviews for students researchers and professionals with an interest in conservation or development projects who want to understand what practical insights can be drawn from history and who seek to apply their work to contemporary issues

Global Ecology in Historical Perspective Kazunobu Ikeya,William Balée,2023-03-10 This book primarily examines human animal and human plant interactions in Asian forests Southeast Asia and Japan and inland waters China For comparison cases from the Americas whales in the Arctic sea turtles in the Caribbean and plants in the Amazon and Central Asia are also included The relationship between plants animals and humans in Asia is quite unique from a global perspective For example satoyama in Japan means ecotone area or the boundary between a village and a forest There as the number of inhabitants declines bears wild boars and other animals increasingly ravage crops sometimes attacking humans as well By showing the regional nature of human animal and human plant interactions in Asia this book provides for the first time a framework for understanding the world s animal and plant human relationships It is assumed that the relationships between humans and

animals and plants during this period were diverse including hunting taming semi domestication and full domestication At the same time for regions outside of Asia the extent to which these diverse relationships were adapted and how diversity was formed is explained from the perspective of historical ecology Customers can expect to derive perspectives on the coexistence of human animal and plant animal relationships from this book in the near future The conservation of rare species diverse habitats and biodiversity is a central theme in considering the relationship between modern civilization and the global environment In post industrial Japan one focus has been the protection of iconic animals such as storks crested ibis dugongs and sea turtles while damage to crops and humans by deer wild boars monkeys bears and other common animals has become an important social issue How can the world s 7 7 billion plus people live in harmony with other species We would like to get some hints on how to solve the problems we are facing Pots, Pans, and People: Material Culture and Nature in Mesoamerican Ceramics Eduardo Williams,2024-07-19 This book explores material culture and human adaptations to nature over time with a focus on ceramics The author also explores the role of ethnoarchaeology and ethnohistory as key elements of a broad research strategy that seeks to understand human interaction with nature over time **Across the Seas in Prehistoric Northeast Asia** Yaroslav Kuzmin,2024-10-16 This book provides the current knowledge on prehistoric human contacts and migrations in Northeast Asia consisting of far eastern Russia Northeastern Siberia Korea Northeast China and Japan using obsidian as a commodity The aim of this book is to reconstruct the patterns of prehistoric exchange and human movements in the Upper Palaeolithic and Neolithic of Northeast Asia The proposed book is the first comprehensive summary of obsidian provenance and issues related to prehistoric human contacts migrations and early seafaring in Northeast Asia The particular importance of this book is that obsidian is used as a commodity to establish the movements of ancient people that is almost impossible to do using traditional archaeological approaches The book contains updated information on the vast region with a multitude of obsidian sources and artefacts based on the author s first hand knowledge generated in the last 30 years It makes this book a unique source of information derived from Russian Japanese Korean and Chinese publications as well as English summaries for comparison between different parts of Northeast Asia

The Routledge Handbook of Historical Linguistics Claire Bower, Bethwyn Evans,2015-03-24 The Routledge Handbook of Historical Linguistics provides a survey of the field covering the methods which underpin current work models of language change and the importance of historical linguistics for other subfields of linguistics and other disciplines Divided into five sections the volume encompass a wide range of approaches and addresses issues in the following areas historical perspectives methods and models language change interfaces regional summaries Each of the thirty two chapters is written by a specialist in the field and provides a introduction to the subject an analysis of the relationship between the diachronic and synchronic study of the topic an overview of the main current and critical trends and examples from primary data The Routledge Handbook of Historical Linguistics is essential reading for researchers and postgraduate students working in this
