The Way of the Four Elements John Michael Greer, 2024-04-30 A one year course for students of the occult to expand their horizons through the study of fire air water and earth Based on an ancient understanding of the cycles of nature John Michael Greer invites students of occult to continue their training with the study of the four elements The four elements are one of the foremost themes of Western occult tradition and have been used across history as a basic template for the process of initiation and seasonal ritual The pattern of study assigns each element to one of the four seasons of the year spring summer autumn winter based upon traditional associations The lessons are intended to be worked through in sync with each season and there is no fixed starting point so students can begin with any of the four elements by following whichever season begins next Each chapter includes both the theory and practice of an elemental education such as symbols and teachings relating to the elements suggestions for further reading exercises for awakening the etheric senses and astral clairvoyance The Way of the Four Elements is the quintessential next step for students of the occult to continue developing and honing the skills essential for a magical education

105 Esoteric Traditions of the World — Book II: Forbidden Paths and Dangerous Teachings of the Hidden Orders: Cathars, Yezidis, Sethian Gnostics, Aghori, Left-Hand Tantra, Taoist Thunder Magic, Umbanda, Vodou, Qalandari Sufis, Mazatec Mushroom Path Laing Z. Matthews, 2025-09-20 Not all sacred knowledge is safe Some teachings have been silenced outlawed or forced into disguise not because they are false but because they overturn the structures of control Dangerous Teachings gathers fifteen lineages whose survival has depended on secrecy exile and the courage of those willing to carry wisdom that could not be spoken aloud Across continents and centuries these traditions have been branded as heresy magic or madness Yet within them lie precise spiritual technologies ways of seeing healing and awakening that confront the deepest fears of empire orthodoxy and conformity This is not sensationalism It is the reality of what happens when the sacred refuses to bow to power In these pages you will meet visionaries ascetics and mystics who kept the thread alive under threat of prison exile or death Native American Church peyote roadmen keeping the night fire through prohibition Romani dream readers decoding fate under centuries of persecution Siberian dreamwalkers retrieving lost souls when the state outlawed shamanism Dagara diviners in West Africa speaking with elements and ancestors against the tide of colonial erasure Kalachakra adepts preserving the Wheel of Time tantra through the destruction of Tibet Forest Theravada monks disappearing into wilderness to escape religious bureaucracy Essene breath mystics whose desert rites survived in fragments Golden Dawn adepts using ritual as a science of transformation not spectacle Assyrian Christian mystics guarding the Aramaic breath of Christ through genocide Each chapter follows the same initiatory pattern the core teaching of the tradition the spiritual condition it addresses its inner technology of practice its symbol or image and the key danger it faces

whether distortion commodification or outright destruction Every section closes with a living practice the reader can try and an image or parable to seal the teaching in memory Dangerous Teachings is not a handbook for dabblers It is a map for those who understand that real wisdom demands responsibility and sometimes risk This is not the marketplace version of spirituality stripped of its teeth It is the unsoftened unlicensed transmission of currents that have survived precisely because they refused to be made safe Volume II continues the work begun in Guardians of the First Flame shifting from primordial traditions to those forced underground by direct suppression Together the seven volumes of Esoteric Traditions of the World form an ark of memory rescuing not just facts but the living essence of ways of knowing that might otherwise vanish If you read this book you step into that ark You take on a share of the responsibility to remember And perhaps if the time comes to pass the fire on
