

BEFORE YOU BEGIN COOKING

PREPARING YOUR FLAVORWAVE OVEN® TURBO

FOR THE FIRST TIME ONLY

The FLAVORWAVE OVEN® TURBO should be heated once before cooking with it. While preparing the oven according to the following instructions, the oven will give off a slight burning odor. The oven is actually burning off excess lubricants found in the oven's heating elements and will not harm you or the oven.

FOLLOW THESE EASY STEPS...

- Wipe the inside of the glass bowl with a damp sponge
- Secure lid on oven
- Set timer for 5 minutes
- Set thermostat to 240°C/500°F and turn oven on
- After timer has shut oven off, allow to cool for 5 minutes
- Wipe inside of the glass bowl with a damp sponge a second time

NOW YOUR FLAVORWAVE TURBO OVEN IS READY TO COOK YOUR FIRST MEAL!

IMPORTANT:

DO NOT WASH OR IMMERSE THE LID IN WATER OR IN DISHWASHER. THE OUTER SURFACE CAN BE CLEANED BY WIPING CAREFULLY WITH A DAMP DISH-CLOTH OR SPONGE.

For Model AX7970R, if the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

HOW TO OPERATE THE FLAVORWAVE OVEN® TURBO PLATINUM

(AX-797DH)

OPTIONAL ITEM

1. Plug one end of Power Cord into back of lid (AX-797DH) and the power plug in a standard AC outlet. Turn the power switch to the ON position.
2. The digital timer will display "00:00", temperature indicator light will stay at 60°C (wash) and the fan speed indicator light at "High". If not, press "Clear" button to bring out the above status.
Note: Please allow time tolerance of 5-7 min for 60 min timer setting.
3. Place lower wire rack in the glass bowl of the oven. (Note: Use the lower rack for all recipes unless otherwise noted). Place food directly on rack unless otherwise specified.
4. If the recipe required preheating, follow this procedure:
Press the "Pre-Heat" button, this will cause the oven to operate at its highest temperature and fan speed for 8 minutes. Preheating is complete when the timer reaches "00:00" and the fan light flashes. Press the up arrow to increase the preheating time, if needed.
5. Time Selection: press the "+" or "-" buttons lightly to raise or lower the time selected in increments of 1 minute up to 23 hours and 59 minutes. Holding the "+" button will cause the increment more quickly. The "Clear" button will reset the timer to zero. (Note: you may change the cooking time during cooking by pressing the "+" or "-" buttons).
6. Temperature Selection: Press the "Temp" button gently to move the temperature selector through the temperatures one at a time from left to right. A light will indicate the selected temperature. Once 240°C (500°F) is reached the cycle will start all over again at "wash" (Note: you may change the temperature setting during cooking by pressing the "Temp" button).
