Corporate Citizens Ronald W. Evans, 2014-11-27 *Schooling Corporate Citizens* examines the full history of accountability reform in the United States from its origins in the 1970s and 1980s to the development of the Common Core in recent years. Based in extensive archival research it traces the origins and development of accountability reform as marked by key government and business led reports from *A Nation at Risk* to *No Child Left Behind* and *Race to the Top*. By using the lens of social studies and civic education as a means to understand the concrete impacts of accountability reforms on schools Evans shows how reformers have applied principles of business management to schools in extreme ways damaging civic education and undermining democratic learning.
