Armed Security Guard Training Manual Bernard Martinage, 2014-06-01 All states have different regulations, laws, licensing, and requirements for security guards. This is especially true regarding the use of deadly force, power of detain, arrest, and many other legal aspects of being a security guard. It is the responsibility of the school instructor to know the laws relating to security guard activities for the State, County, or City in which they train and for which they train. These laws and regulations are easy to find and free to print because they are of the public domain. While all states may have different laws, almost all states include in their armed security guard training and educational requirements firearm knowledge and technical skills so the armed security guard can effectively use a firearm in the defense of self and others. This Armed Security Guard Training Manual was developed to meet the most stringent standard. It represents 40 hours of study materials. It also includes 10 hours legal section that discusses Weapons and Firearms and the use of deadly force. These 10 hours of the curriculum are modeled after Florida laws which regulate heavily security guard activities. This section constitutes an excellent moral guideline to work from BUT it is your responsibility to research and teach the law of your state, county, city as well as ensure that you take the steps you need to meet your state's licensing requirements if there are any. Last but not least, this kit as you see it is what we use every day to train our pupils at Safe N Secure.
