Invocation For Hospital Volunteers:

Prayer as Transgression? Sheryl Reimer-Kirkham, Sonya Sharma, Rachel Brown, Melania Calestani, 2020-09-23 Healthcare settings are notoriously complex places where life and death co exist and where suffering is an everyday occurrence giving rise to existential questions The full range of society s diversity is reflected in patients and staff Increasing religious and ethnic plurality alongside decades of secularizing trends is bringing new attention to how religion and nonreligion are expressed in public spaces Through critical ethnographic research in Vancouver and London Prayer as Transgression reveals how prayer occurs in hospitals long term care facilities and community based clinics in a variety of forms and circumstances Prayer occurs quietly on the edges of day to day healthcare provision and in designated sacred spaces Some requests for prayer however interrupt and transgress the clinical machinery of a hospital such as when a patient asks for prayer from the chaplain while the operating room waits With contributions by researchers healthcare practitioners and chaplains the authors consider how prayer transgresses the clinical priorities that mark healthcare opening up ways to think differently about institutional norms and social structures They show how prayer highlights trends of secularization and sacralization in healthcare settings They also consider the ambivalences about prayer arising from staff and patients varied views on religion and spirituality and their associated ethical concerns amidst clinical and workload demands A window onto religion in the public sphere Prayer as Transgression tells much about how people live well together even in the face of personal crises and fragilities suffering diversity and social change

Moments for Meditation Dr. A.T. Ventzek, 2019-11-29 Presently rounding the rehab ward praising the Lord sharing their faith praying for a robust recovery from their illness injury or surgery For now we know prayer meditation music exercise and laughter All delay our trip to the hereafter Our immune is strengthened and our longevity is lengthened healing is quickened and our hospital stay is shortened Proven on brain imaging limbic pleasure reward system that is activating and the stress hormones are dissipating the happy helpful hormones bring wellness the harmful and hateful hormones spread illness through the inflammatory factors that now are the root cause of all our physical emotional and mental maladies Studies show hospitals that offer pastoral care patients have shorter hospital stays better heart rate better respiratory rate better blood pressure oxygen and a 25% less pain *Making Health Public* Charles L. Briggs, Daniel C. Hallin, 2024-08-13 This book examines the relationship between media and medicine Drawing on insights from anthropology linguistics and media studies it considers the fundamental role of news coverage in constructing wider cultural understandings of health and disease The authors advance the notion of biomediatization and demonstrate how health knowledge is co produced through connections between dispersed sites of knowledge making and through multiple forms of expertise The chapters offer an innovative combination of media content analysis and ethnographic data on the production and circulation of health news drawing on work with journalists clinicians health officials medical researchers marketers and audiences New to this edition are new case studies in particular about the COVID 19 pandemic The first case study looks at pharmaceutical and biotech news and how journalists portray the flow of information across the boundaries between science and business The next two case studies examine pandemic news beginning with the 2009 H1N1 swine flu pandemic and continuing to the COVID 19 pandemic The final case study examines the treatment of race and racism in health news looking at the ways it interacts with cultural constructions of health citizenship and the forces that have produced a shift from deracialization of health news to a much stronger focus on race and racism in contemporary health news This book is ideal for undergraduate students and scholars across the social sciences health sciences cultural studies and journalism *Safe Migration and the Politics of Brokered Safety in Southeast Asia* Sverre Molland, 2021-07-19 The book investigates how the United Nations governments and aid agencies mobilise and instrumentalise migration policies and programmes through a discourse of safe migration Since the early 2000s numerous non governmental organizations NGOs UN agencies and governments have warmed to the concept of safe migration often within a context of anti trafficking interventions Yet both the policy enthusiasm for safety as well as how safe migration comes into being through policies and programs remain unexplored Based on seven years of ethnographic fieldwork in the Mekong region this is the first book that traces the emergence of safe migration why certain aid actors gravitate towards the concept as well as how safe migration policies and programmes unfold through aid agencies and government bodies The book argues that safe migration is best understood as brokered safety Although safe migration policy interventions attempt to formalize pre emptive and protective measures to enhance labour migrants well being the

book shows through vivid ethnographic details how formal migration assistance in itself depends on and produces informal and mediated practices The book offers unprecedented insights into what safe migration policies look like in practice It is an innovative contribution to contemporary theorizing of contemporary forms of migration governance and will be of interest to sociologists anthropologists political scientists and human geographers working within the fields of Migration studies Development Studies as well as Southeast Asian and Global Studies The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781003185734> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
