Beginning with Volume 13 the printing and dissemination phases of the activity were transferred to University Microfilms
Xerox of Ann Arbor Michigan with the thought that such an arrangement would be more beneficial to the academic and
general scientific and technical community After five years of this joint undertaking we had concluded that it was in the
interest of all concerned if the printing and distribution of the volumes were handled by an international publishing house to
assure improved service and broader dissemination Hence starting with Volume 18 Masters Theses in the Pure and Applied
Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York and in the same year
the coverage was broadened to include Canadian universities All back issues can also be ordered from Plenum We have
reported in Volume 31 thesis year 1986 a total of 11 480 theses titles from 24 Canadian and 182 United States universities
We are sure that this broader base for these titles reported will greatly enhance the value of this important annual reference
