CBE, 2022-07-11 The Trojan Horse affair sent shock waves across England's education system in 2014 The affair centred around an anonymous letter that contained instructions on how to take over schools with a majority Muslim population by influencing their governing bodies and undermining head teachers The authenticity of the letter remains hotly disputed yet its publication generated huge turbulence not only in Birmingham's schools and communities but also in both Parliament and the national news The book offers fresh perspectives based on unique access to information from within the city written by respected educationalists who have worked successfully in Birmingham for many years both during the Trojan Horse era and since It explains what led to the publication of the letter its profound consequences for education in Birmingham and how it influenced events in the city since Crucially the book also opens up an informed discussion around the issues raised during Trojan Horse such as delivering a well rounded curriculum suitable for a diverse school community developing working

and from which Nehru never recovered The border called the Line of Actual Control is not marked on any map agreed upon by the two sides it runs through the largely unpopulated and inhospitable high mountains of the Himalayas From the 1990s as Beijing and New Delhi sought to resolve their seemingly intractable border dispute an elaborate system of agreements kept the situation akin to a kettle on a slow boil But the kettle is now boiling over The two rising Asian giants both led by strongly nationalistic regimes neither of which wishes to blink first are seeking geopolitical and strategic advantage This timely book explains what is happening on the roof of the world and why that matters for us all
