Department of Education**

Leanerships 2015 2016:

Getting Skills Right Community Education and Training in South Africa OECD,2019-03-14 Adult learning systems play a crucial role in helping people adapt to the changing world of work and develop relevant skills Community Education and Training has been brought forward as a possible way to foster adult learning in South Africa especially among disadvantaged groups South Africa

Better Choices Greg Mills,Mcebisi Jonas,Haroon Bhorat,Ray Hartley,2022-04-01 A must read accessible and skilful account of South Africa s socio economic challenges policy and governance choices THEMBA MASEKO All the numbers on South Africa s crisis dashboard are blinking red The economy is failing to grow and more and more young people find themselves on the outside looking in as education falters and jobs disappear Energy and transport are in crisis Governance is floundering as debt mounts and government runs out of money Better Choices is a collection by South Africa s top thinkers on the political economy providing an unflinching account of the myriad challenges the country faces The picture that emerges is of a nation on the brink of a catastrophic slide into failure unless better if tough policy choices are made As stark as these problems are their solutions are tantalisingly close at hand The chapters in this book outline exactly the solutions those better choices that need to be made by leadership to alter the country s bleak trajectory South Africa cannot talk its way out of trouble Key to success is removing the sources of friction the red tape over regulation and rents that slow down investment This is only possible if a more effective focused government acts decisively Compiled by The Brenthurst Foundation Africa s leading think tank on economic development Better Choices is for those who want to build a positive inclusive future for South Africa

The Skills Balancing Act in Sub-Saharan Africa Omar Arias,David K. Evans,Indhira Santos,2019-01-31 Despite strong recent economic growth Sub Saharan Africa has levels of economic transformation poverty reduction and skill development far below those of other regions Smart investments in developing skills aligned with the policy goals of productivity growth inclusion and adaptability can help to accelerate the region s economic transformation in the 21st century Sub Saharan Africa s growing working age population presents a major opportunity to increase shared prosperity Countries in the region have invested heavily in building skills public expenditure on education increased sevenfold over the past 30 years and more children are in school today than ever before Yet systems for building skills in this population have fallen short and these shortcomings significantly impede economic prospects In half of the countries fewer than two in every three children complete primary school even fewer reach and complete higher levels of education Learning outcomes have been persistently poor leading to substantial gaps in basic cognitive skills literacy and numeracy among children young people and adults The literacy rate of the adult population is below 50 percent in many countries functional literacy and numeracy rates are even lower Systemwide change is required to achieve significant progress Multiple agencies at the central and local levels are involved in skills development strategies making skills everyone s problem but no one s responsibility Policies and reforms need to build capacity for evidence based policies and create

incentives to align the behaviors of all stakeholders with the pursuit of national skills development goals. The Skills Balancing Act in Sub-Saharan Africa: Investing in Skills for Productivity, Inclusivity and Adaptability lays out evidence to inform the policy choices that countries will make in skill investments. Each chapter addresses a set of specific questions drawing on original analysis and synthesis of existing studies to explore key areas: How the skills appropriate to each stage of the life cycle are acquired and what market and institutional failures affect skills formation; What systems are needed for individuals to access these skills including family investments, private sector institutions, schools and other public programs; How those systems can be strengthened; How the most vulnerable individuals, those who fall outside the standard systems and have missed critical building blocks in skills acquisition, can be supported. Countries will face trade-offs, often stark ones that will have distributional impacts and a bearing on their development path. Committed leaders, reform coalitions and well-coordinated policies are essential for taking on the skills balancing act in Sub-Saharan Africa.

OECD Economic Surveys: South Africa 2015 OECD, 2015-07-17. This 2015 OECD Economic Survey of South Africa examines recent economic developments, policies and prospects. Special chapters cover infrastructure and business regulation, tax policy and inclusive growth.

New Models for Technical and Vocational Education and Training Makgato, Moses, Afeti, George, 2020-12-18. Technical and vocational education and training at technical schools are major contributing factors in combating poverty, unemployment and inequality. The primary purpose of technical and vocational education and training is to prepare students and learners for the world of work and for a smooth transition from education institutions into the workplace. As the Fourth Industrial Revolution continues to create more radical changes in the labor market, experts are calling for a reform of education including vocational education and training and adult and professional education. *New Models for Technical and Vocational Education and Training* is an essential scholarly research book that examines TVET and CET colleges and programs that provide intermediate skills to enhance students' chances of employability and entrepreneurship in Industry 4.0. The book explores knowledge in respect to workforce preparation, digital skills development, teaching and learning of TVET, flexibility and articulation of TVET to respond to work, integrated learning and reskilling and upskilling to avoid skill mismatches. It is ideal for TVET schools, academicians, curriculum designers, managers, training officers, administrators, vocational professionals, researchers and students.

Socio-Economic Perspectives on Vocational Skill Development: Emerging Research and Opportunities Okolie, Ugochukwu Chinonso, 2019-11-15. Vocational skill development (VSD) has the capacity to contribute to poverty reduction because it serves as the key to job creation and inclusive growth. As developed nations have been faced with high youth and graduate unemployment rates, basic education and vocational skill development have become a priority of development cooperation activities. However, there is a

realization that measures to improve skill training can only be successful if they are in harmony with employment and economic policies Socio Economic Perspectives on Vocational Skill Development Emerging Research and Opportunities is a collection of innovative research on the methods and applications of equipping individuals with relevant work skills and implementing effective skills systems that can lead to economic growth and high levels of productivity While highlighting topics including human capital professional development and skill gaps this book is ideally designed for managers business professionals policymakers academicians researchers and management students seeking the current understanding of the strategic role of skill development at different levels of the socio economic system **Internships, Employability and the Search for Decent Work Experience** Andrew Stewart,Rosemary Owens,Niall O'Higgins,Anne Hewitt,2021-06-25 This groundbreaking book examines the growing phenomenon of internships and the policy issues they raise during a time when internships or traineeships have become an important way of transitioning from education into paid work *Annual Report Mpumalanga (South Africa). Department of Education,2015* *African Pentecostal Theology* Mookgo Solomon Kgatle,2023-12-11 African Pentecostal Theology Modality Disciplinarity and Decoloniality explores research methodology theological disciplines and contextualization as important aspects in the process of studying Pentecostal theology in an African context Mookgo Solomon Kgatle outlines different data collection and data analysis methods including the skills of interpreting and presenting research findings in a responsible manner This book illustrates that Pentecostal theology given its pneumatological approach goes beyond conventional theological disciplines in transdisciplinary research The development of knowledge in African Pentecostal Theology should recognize African Indigenous Knowledge Systems AIKS African oral and traditional cultures and African indigenous languages to be relevant to Africans Pentecostal theologians from different theological disciplines in Africa and globally will find this book a worthwhile read *ICMLG 2018 6th International Conference on Management Leadership and Governance* Dr Vincent Ribiere,2018-05-24 These proceedings represent the work of researchers participating in the 6th International Conference on Management Leadership and Governance ICMLG 2018 which is being hosted this year by the Institute for Knowledge and Innovation Southeast Asia IKI SEA a Centre of Excellence of at Bangkok University Thailand on 24 25 May 2018 *OECD Economic Surveys: South Africa 2020* OECD,2020-07-31 The COVID 19 outbreak is worsening an already fragile economic outlook Since 2013 growth has been modest and unemployment has been rising Policy uncertainty has been the main driver of low confidence and subdued investment Following a sharp fiscal deterioration in recent years the crisis also heightened debt sustainability challenges **OECD Reviews on Local Job Creation Employment and Skills Strategies in Indonesia** OECD,Asian Development Bank,2020-10-07 This report comes at a time when policy makers are challenged by the COVID 19 crisis that is generating a profound reflection on economic and social well being Before COVID 19 hit Indonesia had experienced remarkable economic growth making substantial progress in poverty reduction and gains in employment However there are large differences in

outcomes across Indonesian provinces which often reflect the quality of local infrastructure services education and jobs
