simplifies the process of using Ractive.js to create websites or online applications that are interactive by default. It equips you with a starting toolset to develop future projects safe in the knowledge that the site operates as expected and is not reliant on bloated technology typical of other similar frameworks. Beginning Ractive.js takes the view that you shouldn't always resort to what everyone else uses and that there is indeed a different way you can achieve the same result. We live in an age where speed and simplicity are of the essence; this book provides a perfect alternative that challenges the norm. Stop thinking you must use the same library as everyone else. Give Ractive.js a try. What You'll Learn: Understand how Ractive.js works and how it differs to other templating frameworks. Source and manage data using Ractive.js data binding methods. Gain an appreciation of managing events and animations using Ractive.js. Create components that contain reusability functionality for current or future projects. Work through real world project examples using the Ractive.js library. Who This Book is For: Website developers who are keen to develop a fully interactive template driven website quickly but don't have the desire to learn a more heavyweight framework such as AngularJS. Agile development teams where time is of the essence and the pressure is on to deliver results quickly. Developers who want to focus on simplicity where the library works for them and they are not constrained by having to follow a particular methodology.

[Checking Out with the Payment Request API](#) Alex Libby, 2019-09-13. Quickly create consistent checkouts for use within websites using the power of the HTML5 Payment Request API. This project oriented book simplifies the process of creating and manipulating checkouts with the Payment Request API in browsers for websites or online applications using little more than a text editor or free software. One of the key concerns of any e-commerce company is ensuring customers complete the checkout process successfully and for them to return. Unfortunately many checkouts still suffer from a high level of drop out. The Payment Request API is an open standard being developed by browser vendors to simplify payments for users with a quick and seamless autofill process enabling a broader set of online payment providers to participate in the market. The API is designed to be easy to implement across all supported browsers and work with any payment type or service provider. Checking Out with the Payment Request API equips you with a tool set that you can use to develop future projects incorporate into your existing workflow and allow you to reduce any dependency on complex custom made checkouts that might be prone to failure or unwieldy to use. You'll learn how to use the Payment Request API to create consistent checkouts quickly and easily and work through practical example projects that will help familiarize you with using the API. We live in an age where speed and accuracy are of the essence; add effortless flow to your payments using this book today. What You'll Learn: Implement the Payment Request API in a project. Explore some of the options for personalizing it for a project. Gain an appreciation of pointers around user experience and how this affects the API. Understand how to manage issues and security when using the Payment Request API. Work through some example projects from standalone demos to implementing in frameworks. Who This Book Is For: Website developers familiar with creating shopping carts and looking to leverage the HTML5 Payment Request API. Also ideal for those in agile development.
