When two unrelated things come together something new springs into existence they form a third thing and that becomes a new idea. That's Crossover Creativity. The more you read watch observe and consume the more fuel for ideas you have in your brain the more crossover creativity will happen for you. In this latest collection of stories about creativity in real life situations Dave Trott presents examples of crossover creativity in action as a guide for those who have to generate ideas in advertising business sport or anywhere in the wider world.
