image segmentation enhances discrimination of motion in visual - Jul 10 2021

web we investigated whether segmentation of dynamic images on the basis of hue luminance contrast polarity or luminance contrast amplitude aids discrimination of motion direction

segmentation of mr images via discriminative dictionary - Jan 16 2022

web aug 1 2013 we propose a novel method for the automatic segmentation of brain mri images by using discriminative dictionary learning and sparse coding techniques in

discriminative image segmentation applications to - Apr 18 2022

web this thesis proposes several new techniques for hyperspectral image segmentation based on discriminative bayesian approaches where the posterior class distributions are

fast interactive image segmentation by discriminative clustering - Feb 26 2023

web we propose a novel and fast interactive image segmentation algorithm for use on mobile phones instead of using global optimization our algorithm begins with an initial over

discriminative image segmentation applications to download - Aug 03 2023
