

Speaker Stacks Investigation

Robert J. Vance, January, 2000

My stack of three speakers, with the addition of two tweeters and three subwoofers, helped me see how to improve both the sound and the appearance of my speakers.

"What's the best way to make speakers look like they're on a stack?"

"What's the best way to make a stack of speakers look like a stack of speakers, and not just a stack of speakers?"

"The answer, I think, is to make the stack look like a stack of speakers. I mean, in 1999, I was looking at the latest stereo systems and I was thinking, 'What's the best way to make a stack of speakers look like a stack of speakers?'"

"What is the best way to make a stack of speakers look like a stack of speakers?"

"The answer is to make it look like a stack of speakers."

At the time, my only real concern was the sound. I was looking for a stack of speakers that would sound like a stack of speakers.

"The answer is to make it look like a stack of speakers. I mean, in 1999, I was looking at the latest stereo systems and I was thinking, 'What's the best way to make a stack of speakers look like a stack of speakers?'"
