Environmental control systems are the components of a building that keep occupants comfortable and help make the building
work Mechanical and Electrical Equipment for Buildings covers both active controls like air conditioners and heaters as well
as passive controls like daylighting and natural ventilation Because these systems comprise the entire energy use and costs
of a building s life the book stresses the importance of sustainability considerations during the design process by both
architects and builders Authored by two leading green design educators MEEB provides the most current information on low
energy architecture including topics like Context comfort and environmental resources Indoor air quality and thermal control
Illumination acoustics and electricity Fire protection signal systems and transportation Occupant comfort and building
usability are the most critical factors in the success of a building design and with environmental concerns mounting it s
becoming more and more important to approach projects from a sustainable perspective from the very beginning As the
