**My Brilliant Career** Miles Franklin, 2008-12-01 The fierce irreverent novel of aspiration and rebellion that is both a cornerstone of Australian literature and a feminist classic Miles Franklin began the candid passionate and contrary My Brilliant Career when she was only sixteen intending it to be the Australian answer to Jane Eyre But the book she produced a thinly veiled autobiographical novel about a young girl hungering for life and love in the outback so scandalized her country upon its appearance in 1901 that she insisted it not be published again until ten years after her death

**Three Brilliant Careers** Ross Davies, 2015-01-05

Three Brilliant Careers reveals the previously untold story of celebrated author Miles Franklin and two lifelong Australian friends Nell Malone and Kath Ussher who met in Chicago in 1914 and reunited a year later in war torn London. Despite facing enormous risks, the women subsequently travelled to the Balkans with the Scottish Women's Hospitals and served in frontline medical units attached to the French and Serbian Armies. After the war, Miles settled in London, Kath in Hollywood and Nell in Paris, but maintained their friendship through regular correspondence. All three achieved distinction in their chosen fields, although not without encountering significant obstacles in their path. Bridging four decades across several continents, Three Brilliant Careers follows the remarkable lives of the friends and explores their crossed destinies to tell an inspirational story of Australia's early feminists.

**The End of My Career** Miles Franklin, 1984

**Material Ambitions** Rebecca Richardson, 2021-11-30

What the Victorian history of self-help reveals about the myth of individualism. Stories of hardworking characters who lift themselves from rags to riches abound in the Victorian era. From the popularity of such stories, it is clear that the Victorians valorized personal ambition in ways that previous generations had not. In *Material Ambitions*, Rebecca Richardson explores this phenomenon in light of the understudied reception history of Samuel Smiles's 1859 publication *Self-Help: With Illustrations of Character, Conduct, and Perseverance*. A compilation of vignettes about captains of industry, artists, and inventors who persevered through failure and worked tirelessly to achieve success in their respective fields, *Self-Help* links individual ambition to the growth of the nation. Contextualizing Smiles's work in a tradition of Renaissance self-fashioning, eighteenth-century advice books, and inspirational biography, Richardson argues that the burgeoning self-help genre of the Victorian era offered a narrative structure that linked individual success with collective success in a one-to-one relationship. Advocating for a broader cultural account of the ambitious hero narrative, Richardson argues that reading these biographies and self-help texts alongside fictional accounts of driven people complicates the morality tale that writers like Smiles took pains to invoke. In chapters featuring the works of Harriet Martineau, Dinah Craik, Thackeray, Trollope, and Miles Franklin, Richardson demonstrates that Victorian fiction dramatized ambition by suggesting where it runs up against the limits of an individual's energy and ability, where it turns into competition, or where it risks upsetting a socio-ecological system of finite resources. The upward mobility plots of *John Halifax, Gentleman* or *Vanity Fair* suggest the dangers of zero-sum thinking, particularly evidenced by contemporary preoccupations with Malthusian and Darwinian discourses. Intertwining the methodologies of disability studies and ecocriticism, *Material Ambitions* persuasively unmasks the longstanding myth that ambitious individualism can overcome disadvantageous systematic and structural conditions.
