January 2019 Edition of The Hindu Newspaper Based One-Liners eBook (English Medium) Adda247 Publications, To pave your way to ace the grades in General Awareness Section of banking and other competitive exams Adda247 Publications brings to you an e book The Hindu Based Current Affairs One liner Questions Practice E book January 2019 This e book provides day wise questions on Current happenings Static and Banking Awareness Based on the everyday news questions in the e book will be updated every evening on a regular basis The book will be incorporating more than 300 questions based on the current affairs of 1st of January 2019 to 31st of January 2019 from The Hindu newspaper and are prepared by Gopal Anand Sir Salient features of The Hindu Based Current Affairs One liner Questions Practice E book Day wise questions on Current Static and Banking Awareness Incorporates more than 300 questions Questions based on the news from 1st of January 2019 to 31st of January 2019 Available in the English Language *The SHROUDED SATANISM in FEUDAL LANGUAGES!* VED from VICTORIA INSTITUTIONS, 2013-12-10 This book can be downloaded as a PDF file from here This book I wrote I presume in 2013 It is a huge book of epic parameters The basic underlying theme is the essential difference planar languages has with feudal languages Feudal languages are quite powerful in that the moment they are spoken the social structure and human relationships change powerfully into a custom design hierarchy depending on the language When planar languages are spoken the social system and human relationship shift towards a planar arrangement For a planar language social system to experience feudal language communication is a very creepy experience Individuals can go berserk Mental trauma and emotional terrors which cannot be understood by the native English will effect individuals selectively with the others having no idea that some individuals among them have been effected This is a very vital piece of information which all native English nations should understand For youngsters persons engaged in professions which are defined in pejorative usages in feudal languages and various others can literally go mentally ill when accosted or connected with feudal language speakers The issue of Gun violence in the US in which innately decent and peaceful persons go homicidal can be directly or indirectly connected to the affliction caused by feudal languages I very specifically mention the name of Adam Purinton in this connection It is dangerous to allow bilingualism to run riot in native English nations if the other language is a feudal

language For feudal languages do have carnivorous codes Inside feudal language nations people do keep a distance from lower positioned persons and groups of persons who can if they want bite them verbally without the use of any abusive word profanity or expletive Simply change the indicant word level of certain key words The terrific damage is done Modern psychology and psychiatry can be utter nonsense They do not know about these things Verbal signals can trigger various kinds of switch on and switch off effects in others Instead of focusing on the person who has been affected it would be more intelligent and effective to find out who is sending the switch on and switch off signals And send them home to their home lands Feudal languages can create mutation in physical features emotional balance human relationships national economy and stature of professions and in many more things about which native English nations have no information on It is dangerous for the native English to learn feudal languages when living in the midst of feudal language speakers It would only have the effect of allowing the feudal language speakers to place a powerful grip on them physically and mentally In fact the feudal languages speakers would literally be able to control the emotional stability of the native English speakers if they can be made to understand feudal languages It would be like string puppetry The native English who have learned feudal languages can literally be made to dance yell and jump as per the pull and push that can be conveyed by means of the holding strings of the verbal codes in feudal languages At the same time for feudal language speakers knowing English is a great advantage It would give a very powerful pathway and bridge for them to crossover the various gorges in their own communication code and enter into the placid native English locations As of now almost all native English nations are simply getting dismantled and disarrayed by the spread of feudal language speakers inside their vital areas Things are going into various errors Much worse is in the offing unless effective steps are taken to forestall them I wrote this book some five years back In this book a bit of the personal experiments I have done many years ago on certain individuals has been mentioned This book is not focused on the internal codes in feudal languages This book moves through the peripheral areas of many other items including the English colonial rule in the subcontinent
