Furthermore, the system enables users to customize the data they store in [Epic EMR software](#), making it an ideal choice for organizations that require a large database. One of the best features of Epic is that it can exchange patient charts with other healthcare organizations. This means that you can easily share patient data with other providers. Its Health Information Exchange (HIX) module allows you to share your patients' data with other healthcare providers. Because Epic can exchange more charts than any other vendor, it facilitates communication among community providers, caregivers, and patients.
