

EX30/EX50/EX70

Quick Setup

Before using the projector, read these instructions and the safety instructions in the *User's Guide* on your projector CD-ROM.

1 *Unpack the projector*

You should have the following items:

Canada only: For French speakers, remove sticker(s) from the interface label backing sheet and place over corresponding text on the control panel.

2 *Choose a location*

The projector supports 4 viewing setups: front projection, ceiling projection, rear projection, and rear/ceiling projection. Choose the best one for your environment. If you install the projector in a rear or overhead position, you'll need to choose the correct projection option from the **Extended** menu. See the *User's Guide* on your CD-ROM for instructions.

The distance between the projector and the screen generally determines the size of the image, but the size can also vary depending on the aspect ratio (image shape), how you zoom into the image, and whether you've adjusted other image settings. Depending on the projector model you are using and the image settings you've chosen, you can place the projector anywhere from 33 to 412 inches (84 to 1047 cm) from the screen.

Use the tables in the *User's Guide* or the Image Size calculator on the Multimedia Projectors page on Epson's website to help you determine the proper projection distance.
