Quick Setup

Before using the projector, read these instructions and the safety instructions in the User's Guide on your projector CD-ROM.

1 Unpack the projector

You should have the following items:

Projector

Carrying case

Component-to-mini adapter (EX50/EX70 only)

VGA cable

Power cord

USB cable

Projector remote control (EX30/EX50)

Projector remote control (EX70)

Remote

Password Protection sticker

User's Guide CD-ROM

Interface label stickers (included for Canada only)

Canada only: For French speakers, remove sticker(s) from the interface label backing sheet and place over corresponding text on the control panel.

2 Choose a location

The projector supports 4 viewing setups: front projection, ceiling projection, rear projection, and rear/ceiling projection. Choose the best one for your environment. If you install the projector in a rear or overhead position, you'll need to choose the correct projection option from the **Extended** menu. See the User's Guide on your CD-ROM for instructions.

The distance between the projector and the screen generally determines the size of the image, but the size can also vary depending on the aspect ratio (image shape), how you zoom into the image and whether you've adjusted other image settings. Depending on the projector model you are using and the image settings you've chosen, you can place the projector anywhere from 30 to 412 inches (84 to 1046 cm) from the screen.

Use the tables in the User's Guide or the Image Size calculator on the Multimedia Projectors page on Epson's website to help you determine the proper projection distance.

3 Plug in and turn on

1 Open the **A/V Mute** slide (lens cover).

2 Connect the power cord to the projector and plug the other end into an electrical outlet.

Connecting with a USB cable

If you're connecting a Windows Vista®, XP, or 2000 computer to the projector, you can use the USB cable. You don't need to use the VGA cable.

1 Make sure the projector is turned on.

2 Turn on your computer.

3 Connect the square end of the USB cable to the projector's **Type B** USB port.

4 Connect the flat end of the cable to any available USB port on your computer.

5 Follow the instructions on your computer screen to install the Epson USB Display software (you need to install the software only the first time you connect). After the software has been installed, you see your computer's screen displayed by the projector.

ℹ️ If you see a "Digital Signature Warning" while installing the software, select Continue.
