**Argument Dialectics: The Place of Reasons in Logic** Hubert Marraud, 2025-06-12 This book is a systematic exposition of Argument Dialectics AD Despite its name argument dialectics is a logical approach to argumentation theory AD stands out among theories of argument because of three unusual features it is reasons based holistic and particularistic This implies that AD conceives of logic as a theory of the dialectical construction of reasons not as a theory of inferences Consequently contrary to other logical approaches AD focuses on the study of inter argumentative relations especially those of opposition and weighing The book makes an extensive use of the theory of reasons a branch of metaethics that has been a very valuable quarry of intuitions and concepts for the elaboration of a reason based theory of argument The oppositions generalism particularism and atomism holism proposed by Jonathan Dancy which play a central role in the book and in the development of AD have been adapted from the theory of reasons and the same can be said of the distinction between different statuses of reasons that AD associates with different kinds of counterarguments Conceiving of the theory of argument in terms of reasons has the effect of situating the paradigm of argumentation in practical argumentation reasoning about what to do rather than in theoretical

argumentation about what to believe as inference based theories do Hence this book is of interest to argumentation theorists communication theorists epistemologists linguists moral philosophers and philosophers of law **Shakespearean Rhetoric** Benet Brandreth,2021-03-25 Classical Rhetoric the art of persuasion formed the sum and substance of Shakespeare s education and was the basis of his understanding of the power of language and how it worked to move delight and teach Rhetoric which seeks to explain the way that language works to influence others provides a powerful transformative tool for approaching text in performance This book helps you understand the key concepts of rhetoric It gives clear explanations stripped of jargon and examples of rhetorical technique in the plays It also provides engaging practical exercises to unlock character and to identify themes in the plays through the lens of rhetoric Academically rigorous based on more than a decade of practical experience in the use of rhetoric in drama at the highest level it is an ideal companion for anyone engaging with Shakespeare in performance The Critical Thinking Toolkit Galen A.
