Assessment of Media Development in Ethiopia UNESCO, UNESCO Liaison Office in Addis Ababa, 2023-01-20

Spin Wars and Spy Games Markos Kounalakis, 2018-07-01 As most long standing news outlets have shuttered their foreign bureaus and print operations the role of GNNs as information collectors and policy influencers has changed in tandem Western GNNs are honored for being untethered to government entities and their ability to produce accurate yet critical situational analyses However with the emergence of non Western GNNs and their direct relationships to the state the independent nature of our global news cycle has been vastly manipulated In *Spin Wars and Spy Games*

Kounalakis uses his interviews with an expansive and diverse set of GNN professionals to deliver a vivid depiction of the momentous sea change in mass media production. He traces the evolution of global news networks from the twentieth century to now, revealing today's drastically altered news business model that places precedence on networks leveraging global power. This eye-opening narrative transforms our understanding of why countries like Russia and China invest heavily in their news media and how the GNN framework operates in conjunction with state strategy and diplomatic sensitivity. Profoundly meticulous and insightful, this seminal work on the current state of transnational journalism gives readers a first-hand look at how global media powers shape policy and morph the public's consumption of information.

Development Without Aid David A. Phillips, 2013-04-15. *Development Without Aid* opens up perspectives about foreign aid to the world's poorest countries. Growing up in Malawi, the author developed a sense of the limitations of foreign assistance and from this evolves a critique of foreign aid as an alien resource unable to provide the dynamism that could propel the poorest countries out of poverty. The book aims to help move the discussion beyond foreign aid. It examines the rapid growth of the world's diasporas as a quasi-indigenous resource of increasing strength in terms of both financial and human capital and considers how far such a resource might supersede aid. It uses extensive research findings to explore the possibilities for a resumption of sovereignty by poor states, especially in Africa, over their own development with the assistance of the world's diasporas.

Documented with great care and affection, this book is filled with revelations about the intermingling of peoples, styles of music, business interests, night life pleasures, and the strange ways lived experience shaped black music as America's music in California. Charles Keil, co-author of *Music Grooves*.

Land Rights and Expropriation in Ethiopia Daniel W. Ambaye, 2015-02-13. This thesis provides a new approach to the Ethiopian Land Law debate. The basic argument made in this thesis is that even if the Ethiopian Constitution provides and guarantees common ownership of land together with the state to the people, this right has not been fully realized, whether in terms of land accessibility, enjoyability, and payment of fair compensation in the event of expropriation. Expropriation is an inherent power of the state to acquire land for public purpose activities. It is an important development tool in a country such as Ethiopia where expropriation remains the only method to acquire land. Furthermore, the two preconditions of payment of fair compensation and existence of public purpose justifications are not strictly followed in Ethiopia. The state remains the sole beneficiary of the process by capturing the full profit of land value while paying inadequate compensation to those who cede their land by expropriation. Secondly, the broader public purpose power of the state in expropriating the land for unlimited activities puts the property owners under
