

ETHNIC BARGAINING

The Paradox of
Minority Empowerment

ERIN K. JENNE

Ethnic Bargaining The Paradox Of Minority Empowerment

Nader Hashemi, Danny Postel

Ethnic Bargaining The Paradox Of Minority Empowerment:

Ethnic Bargaining Erin K. Jenne, 2014-05-30 *Ethnic Bargaining* introduces a theory of minority politics that blends comparative analysis and field research in the postcommunist countries of East Central Europe with insights from rational choice Erin K Jenne finds that claims by ethnic minorities have become more frequent since 1945 even though nation states have been on the whole more responsive to groups than in earlier periods Minorities that perceive an increase in their bargaining power will tend to radicalize their demands she argues from affirmative action to regional autonomy to secession in an effort to attract ever greater concessions from the central government The language of self determination and minority rights originally adopted by the Great Powers to redraw boundaries after World War I was later used to facilitate the process of decolonization Jenne believes that in the 1960s various ethnic minorities began to use the same discourse to pressure national governments into transfer payments and power sharing arrangements Violence against minorities was actually in some cases fueled by this politicization of ethnic difference Jenne uses a rationalist theory of bargaining to examine the dynamics of ethnic cleavage in the cases of the Sudeten Germans in interwar Czechoslovakia Slovaks and Moravians in postcommunist Czechoslovakia the Hungarians in Romania Slovakia and Vojvodina and the Albanians in Kosovo Throughout she challenges the conventional wisdom that partisan intervention is an effective mechanism for protecting minorities and preventing or resolving internal conflict

Partition and Peace in Civil Wars Carter R. Johnson, 2021-08-09 This book examines whether partition is an effective means to resolve ethnic and sectarian civil wars It argues that partition is unlikely to end ongoing ethnosectarian civil wars but it can increase the likelihood of preventing civil war recurrence as long as the partition separates civilians and militaries The book presents in depth case studies of Georgia Abkhazia and Moldova Transnistria in addition to cross national comparisons of all ethnosectarian civil wars between 1945 and 2004 This analysis demonstrates when partitioning a country can help transform an identity based civil war into a lasting peace Highlighting practical and moral challenges of separating ethnosectarian groups the book contends that complete partitions cannot be easily implemented by the international community and this limits their applicability It also demonstrates that ethnosectarian civil wars are driven less by inter group antagonisms and more by state breakdown meaning displaced minorities can reintegrate peacefully after partition as long as a minimal level of state building has been completed The book ends by examining whether partition would be useful for five contemporary conflicts Iraq Ukraine Donbass Afghanistan Sudan South Sudan and Serbia Kosovo This book will be of much interest to students of civil wars ethnic conflict peace and conflict studies and international relations

Democratisation of Myanmar Nehginpao Kipgen, 2021-09-30 On February 1 2021 Myanmar's military coup abruptly ended a decade of a civilian military hybrid regime a massive setback for the democratisation process Citizens from all walks of life took to the streets and protests erupted over the following weeks and Myanmar became the centre of global attention This book brings up to date how the story of Myanmar's experiment with democracy unravelled

over the last few years This second edition Traces the political transition of Myanmar from a military rule of nearly five decades to a short lived democratic experiment Outlines the factors that contributed to this transition and the circumstances in which it took place Shows how political groups especially Aung San Suu Kyi s National League for Democracy NLD and the military worked together and paved the way for democratisation and what led to the failure of the NLD government Examines the 2020 general election and the declaration of national emergency following the NLD landslide electoral win Bringing together a balance of primary ethnographic fieldwork and nuanced analysis this book will be of great interest to scholars and researchers of Asian and Southeast Asian Studies politics and political processes democratisation process and democratic transitions international relations and peace and conflict studies especially those concerned with Myanmar

Between State and Nation M. Waterbury,2010-11-14 Based on a qualitative study of Hungary and its changing relationship to the 3 million ethnic Hungarians in neighbouring states this book argues that it is not the ties of ethnicity but the political interests of kin state elites that drives states in Eastern Europe to take action on behalf of ethnic kin in neighboring states The Ashgate Research Companion to Secession Peter Radan,2016-03-23 Secession is a detachment of a territory from an existing state with the aim of creating a new state on the detached territory Secession is usually an outcome of the political mobilization of a population on the territory to be detached and as a political phenomenon is a subject of study in the social sciences Its impact on inter state relations is a subject of study in international relations But secession is also subject to regulation both in the constitutional law of sovereign states and in international law Following a spate of secessions in the early 1990s legal scholars have proposed a variety of ways to regulate the international responses to attempts at secessions Moreover since the 1980s normative justification of secession has been subject to an intense debate among political theorists and moral philosophers This research companion has the following three complementary aims First to offer an overview of the current theoretical approaches to secession in the social sciences international relations legal theory political theory and applied ethics Second to outline the current practice of international recognition of secession and current domestic and international laws which regulate secession Third to offer an account of major secessionist movements past and present from a comparative perspective In their accounts of past secessions and current secessionist movements the contributors to this volume focus on the following four components the nature and source of secessionist grievances the ideologies and techniques of secessionist mobilization the responses of the host state or majority parties in the host state and the international response to attempts at secession This provides a basis for identification of at least some common patterns in the otherwise highly varied processes of secession **Multiethnic Regionalisms in Southeastern Europe** Dejan Stjepanović,2017-09-18 This book is based on a comparative study of regionalisms in Croatia s regions of Dalmatia and Istria as well as Serbia s Vojvodina The monograph s main focus is on regionalist political party strategies since 1990 and within that each case study considers history and historiography inter group relations economics and region building The analysis

demonstrates that many of the common assumptions about the causal determinants of territorial autonomy projects and outcomes as well as about a teleological and unidirectional path from regionalism to nationalism do not stand up to scrutiny. The author introduces original concepts such as plurinational multinational and sectional regionalism to theories of nationalism and territorial politics. This book will appeal to scholars and upper level students interested in territorial politics, federalism, nationalism and comparative politics.

Sectarianization Nader Hashemi, Danny Postel, 2017. An anatomy of the increasing sectarianization of conflicts in the Middle East by some of the leading scholars writing on the region.

Inequality, Grievances, and Civil War Lars-Erik Cederman, Kristian Skrede Gleditsch, Halvard Buhaug, 2013-08-26. This book argues that political and economic inequalities following group lines generate grievances that in turn can motivate civil war. Lars Erik Cederman, Kristian Skrede Gleditsch and Halvard Buhaug offer a theoretical approach that highlights ethnonationalism and how the relationship between group identities and inequalities are fundamental for successful mobilization to resort to violence. Although previous research highlighted grievances as a key motivation for political violence, contemporary research on civil war has largely dismissed grievances as irrelevant, emphasizing instead the role of opportunities. This book shows that the alleged non results for grievances in previous research stemmed primarily from atheoretical measures typically based on individual data. The authors develop new indicators of political and economic exclusion at the group level and show that these exert strong effects on the risk of civil war. They provide new analyses of the effects of transnational ethnic links and the duration of civil wars and extended case discussions illustrating causal mechanisms.

Political Autonomy and Divided Societies Alain-G Gagnon, Michael Keating, 2012-03-27. An all star cast of academic experts offer an important and timely analysis of the pursuit of autonomy. They argue that it is key to move beyond the primarily normative debate about the rights or wrongs of autonomous regions on the basis of cultural concerns, instead focusing on understanding what makes autonomy function successfully.

Intra-State Conflict, Governments and Security Stephen M. Saideman, Marie-Joelle J. Zahar, 2008-05-29. This volume seeks to understand the central role of governments in intra state conflicts. The book explores how the government in any society plays two pivotal roles as a deterrent against those who would use violence and as a potential danger to the society. These roles come into conflict with each other as those governments that can best deter potential rebels are also those that can do the most harm to their citizens. Therefore a balance must be achieved, raising difficult tradeoffs for policy makers. This volume marks a departure from studies of ethnic conflict and civil war in recent years which have focused on failed states, in considering the idea that governments themselves may be the source of violence. The contributors not only explore the balancing act that governments must perform but also on the positive and negative roles that the international community can play in these conflicts. In doing so the book covers a range of cases from both advanced and newer democracies to the most conflict prone parts of the world.

The Korean Diaspora in Post War Japan Myung Ja Kim, 2017-05-30. The indistinct status of the Zainichi has meant that

since the late 1940s two ethnic Korean associations the Chongryun pro North and the Mindan pro South have been vying for political loyalty from the Zainichi with both groups initially opposing their assimilation in Japan Unlike the Korean diasporas living in Russia China or the US the Zainichi have become sharply divided along political lines as a result Myung Ja Kim examines Japan's changing national policies towards the Zainichi in order to understand why this group has not been fully integrated into Japan Through the prism of this ethnically Korean community the book reveals the dynamics of alliances and alignments in East Asia including the rise of China as an economic superpower the security threat posed by North Korea and the diminishing alliance between Japan and the US Taking a post war historical perspective the research reveals why the Zainichi are vital to Japan's state policy revisionist aims to increase its power internationally and how they were used to increase the country's geopolitical leverage With a focus on International Relations this book provides an important analysis of the mechanisms that lie behind nation building policy showing the conditions controlling a host state's treatment of diasporic groups

Myth and Reality in International Politics Jonathan Wilkenfeld, 2015-08-27 Recent generations have experienced dramatic improvements in the quality of human life across the globe Wars between states are fought less frequently and are less lethal Food is more plentiful and more easily accessed In most parts of the world birthrates are down and life expectancy up Significantly fewer people live in extreme poverty relative to the overall population Statistics would argue that the human race has never before flourished as it has in this moment And yet even with this progress we face a number of seemingly intractable challenges to the welfare of both states and individuals including Governmental instability undermining the lives of citizens both within and beyond their borders Persistent and recurring intrastate conflict due to ineffective conflict management strategies Marginally successful development efforts and growing income inequality both within and between nations as a result of uncoordinated and ineffective global development strategies Internecine conflict in multiethnic societies manifested by exclusion discrimination and ultimately violence the inevitable consequence of an insufficient focus on managing the inherent tensions in diverse societies Global climate change with the possibility of catastrophic long term consequences following an inability to effectively come to terms with and respond to the impact of human activity on our environment These challenges require a newly collaborative intentional and systematic approach This book offers a blueprint for how to get there calling for increased leadership responsibility clarity of mission and empowerment of states and individuals It is designed to transform lofty but often vague agendas into concrete measurable progress It believes in the capacity of humanity to rise to the occasion to come together to address these increasingly critical global problems and offers one way forward

Negotiating Self-determination Hurst Hannum, Eileen Babbitt, 2006-01-01 *Negotiating Self Determination* takes an in depth look at what an understanding of conflict analysis can bring to the field of international law and the impact that international legal norms could potentially have on the work of conflict resolvers in self determination conflicts

Secessionism and Separatism in Europe and Asia Jean-Pierre Cabestan, Aleksandar

Pavković,2013-01-03 The boundaries between secessionism and separatism are often blurred and in many cases study of secessionism encompasses that of separatism and vice versa Recognising this inherent relationship this book provides a comparative survey of recent attempts at secession and separatist movements from across Europe and Asia and assesses the responses of the respective host governments The essays address two main questions which arise from the relationship between state governments and secessionist movements first how secessionist or separatist movements gather support and mobilize their target populations and second how central political authorities respond to the challenges that secessionist or separatist movements pose to their capacity to control the country With political analysis of recent cases ranging from the Balkans the USSR the UK and the Basque Country to Sri Lanka Burma China Tibet and Taiwan the authors identify both similarities and differences in the processes and outcomes of secessionist and separatist movements across the two distinct regions This volume will be an invaluable resource for those who wish to understand the dynamics of secessionist movements and as such will appeal to students and scholars of Asian and European politics comparative politics international relations and conflict studies It will also be helpful to practitioners and policy makers who wish to understand and contribute to the resolution of such conflicts *Self-Determination after Kosovo* Annemarie Peen Rodt,Stefan Wolff,2017-10-02 Kosovo embodies a key moment in the international practice of dealing with secessionist self determination conflicts For the first time outside of the colonial context and excepting Bangladesh in 1971 an entity s declaration of independence has been widely albeit not universally recognised As such the case of Kosovo has sharpened the focus and intensified the debate on the issue of self determination conflicts and how they are managed by the international community This volume contributes to this debate by examining Kosovo in historical and contemporary comparative perspective and by reflecting on the legal ethical and political implications of its successful declaration of independence This book was originally published as a special issue of Europe Asia Studies *The Armenians and the Fall of the Ottoman Empire* Ari Şekeryan,2023-01-19 The Armistice of Mudros was signed on 30 October 1918 and on the morning of 13 November 1918 a mighty fleet of battleships from Britain France Italy and Greece sailed to Istanbul and dropped anchor without encountering resistance This day marked the beginning of the end of the Ottoman Empire a dissolution that would bring great suffering and chaos but also new opportunities for all Ottomans Muslim and non Muslim alike Drawing upon a previously untouched collection of Armenian and Ottoman Turkish primary sources Ari ekeryan considers these understudied post war years Examining the Armenian community as they emerged from the aftermath of war and genocide ekeryan outlines their shifting political position and the strategies they used to survive this turbulent period By focusing on the Ottoman Armistice 1918 1923 ekeryan illuminates an oft neglected period in history and develops a new case study for understanding the political reactions of ethnic groups to the fall of empires and nation states Ethnic Conflict Karl Cordell,Stefan Wolff,2009 Investigating the causes and consequences of ethnic conflict the authors argue that the most effective responses are those that take into account factors

at the local state regional and global level and that avoid seeking simplistic explanations and solutions to what is a truly complex phenomenon Ethnic conflicts are man made not natural disasters and as such they can be understood prevented and settled However it takes skilful committed and principled leaders to achieve durable settlements that are supported by their followers and it takes the long term commitment of the international community to enable and sustain such settlements Book Jacket *International Encyclopedia of Political Science* Bertrand Badie,Dirk Berg-Schlosser,Leonardo Morlino,2011-09-07

With entries from leading international scholars from around the world this eight volume encyclopedia offers the widest possible coverage of key areas both regionally and globally The International Encyclopedia of Political Science provides a definitive comprehensive picture of all aspects of political life recognizing the theoretical and cultural pluralism of our approaches and including findings from the far corners of the world The eight volumes cover every field of politics from political theory and methodology to political sociology comparative politics public policies and international relations Entries are arranged in alphabetical order and a list of entries by subject area appears in the front of each volume for ease of use The encyclopedia contains a detailed index as well as extensive bibliographical references Filling the need for an exhaustive overview of the empirical findings and reflections on politics this reference resource is suited for undergraduate or graduate students who wish to be informed effectively and quickly on their field of study for scholars seeking information on relevant research findings in their area of specialization or in related fields and for lay readers who may lack a formal background in political science but have an interest in the field nonetheless The International Encyclopedia of Political Science provides an essential authoritative guide to the state of political science at the start of the 21st century and for decades to come making it an invaluable resource for a global readership including researchers students citizens and policy makers The encyclopedia was developed in partnership with the International Political Science Association Key Themes Case and Area Studies Comparative Politics Theory and Methods Democracy and Democratization Economics Epistemological Foundations Equality and Inequality Gender and Race Ethnicity International Relations Local Government Peace War and Conflict Resolution People and Organizations Political Economy Political Parties Political Sociology Public Policy and Administration Qualitative Methods Quantitative Methods Religion

What Do We Know about Civil Wars? T. David Mason,Sara McLaughlin Mitchell,2023-02-13 Since World War II civil wars have replaced interstate wars as the most frequent and deadly form of armed conflict globally How do we account for when and where civil wars are likely to occur when and how they are likely to end and whether or not they will recur In this timely book leading scholars accessibly guide students through cutting edge research on the onset duration outcomes and recurrence of civil wars as well as the ongoing consequences of conflicts in war torn countries such as Syria Sudan and Rwanda In mapping out the current state of our knowledge about civil conflicts the authors also identify what we do not know about civil wars With a consistent approach across chapters and through a wide variety of cases the contributors collectively help readers understand some of the most pressing questions in conflict and

security studies and illustrates how scholars answer them This authoritative text offers both an accessible and current overview of the state of the field and an agenda for future research The second features An entirely new chapter on pro government militias and rebels as criminal groups Chapter 16 Analysis of new trends in civil war data collection that have enabled us to understand geographic and temporal patterns of armed conflict New directions in transitional justice institutions in post conflict environments the resource curse the role of women and the relationship between the environment and civil conflict New material on mediation of conflict and peace agreement implementation and peacekeeping Examples drawn from the Russia Ukraine conflict

Governing for Revolution Megan A. Stewart, 2021-03-18 Prevailing views suggest rebels govern to enhance their organizational capacity but this book demonstrates that some rebels undertake costly governance projects that can imperil their cadres during war The origins for this choice began with the Chinese Communist Party CCP during the Chinese Civil War The CCP knowingly introduced challenging governance projects but nevertheless propagated its strategy globally creating a behavioural model readily available to later rebels The likelihood of whether later rebels will imitate this model is determined by the compatibility between their goals and the CCP s objectives only rebels that share the CCP s revolutionary goals decide to mimic the CCP s governance fully Over time ideational and material pressures further encouraged and occasionally rewarded revolutionary rebels conformity to the CCP s template Using archival data from six countries primary rebel sources fieldwork and quantitative analysis *Governing for Revolution* underscores the mimicry of and ultimate convergence in revolutionary rebels governance that persists even today despite vast differences in ideology

If you ally infatuation such a referred **Ethnic Bargaining The Paradox Of Minority Empowerment** books that will come up with the money for you worth, acquire the certainly best seller from us currently from several preferred authors. Ethnic Bargaining The Paradox Of Minority Empowerment Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Ethnic Bargaining The Paradox Of Minority Empowerment free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Ethnic Bargaining The Paradox Of Minority Empowerment free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying

the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Ethnic Bargaining The Paradox Of Minority Empowerment free PDF files is convenient, it's important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading Ethnic Bargaining The Paradox Of Minority Empowerment. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Ethnic Bargaining The Paradox Of Minority Empowerment any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Ethnic Bargaining The Paradox Of Minority Empowerment Books

1. Where can I buy Ethnic Bargaining The Paradox Of Minority Empowerment books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
