New chapters on implementation whole system strategies and ethics are included but in general it simply fine tunes Block's proven advice to match the transformations that business and society have undergone since initial publication two decades ago. The days of long studies and expert driven answers are passing the author proclaims in his new preface. The task of the consultant is increasingly to build the capacity of clients to make their own assessments and answer their own questions. He then subtly modifies his established recommendations accordingly for every step from the initial client meeting and problem diagnosis.
