Grade 8
Florida Statewide
Science Assessment
Answer Key

These standards constitute a portion of the Florida Statewide Science Assessment standards used previously, and must be supplemented with other standards, items, and responses from other assessment assessments (individualized assessments). In what grade the State Assessment, Reporting State Standards (SCSRS) assessment is assessed by each item in the February 2020, the State Board of Education adopted updated standards. These new standards are included in this booklet to provide teachers with additional information.

Multiple-choice items on Florida Statewide Science Assessment are scored by comparing each item to the state scoring system.

This project is a science practice (test materials) to be used by teachers and students for the purpose of assessing the Florida Statewide Science Assessment. By using these materials, students will become familiar with the system of items and responses (items) that they will use in the actual test. The practice test questions and answers are not intended to determine the length of the actual test, nor should students respond to the test as a test of their understanding of the practice test.
