Legislature. Senate,2017 Summer versus School James Pedersen,2015-01-22 As American educational reformers

continue to find innovative ways to address the global achievement gap many experts seem to agree that increasing

instructional time is a viable option In addition to extending the school day some educational leaders have looked to

modifying the traditional academic calendar to address some of the academic losses that occur when students have 8 10

weeks of summer vacation each year Re examining how students spend their summer vacation although considered by many

to be a cultural taboo may be the answer to addressing global competition and decreasing the national achievement gap The

need for a two month break from schools harkens back to a pre industrial time that no longer is pertinent for our students

Although an answer may be staring us in the face are we willing to give up on the American tradition of summer vacation all

in the name of reform and student success Courts, Pluralism and Law in the Everyday Cinzia Piciocchi,2023-08-11 This

book examines the everyday judicial experience in four multicultural jurisdictions as a means of exploring the relationship

between legal systems and cultural identities Increasing social heterogeneity has deeply affected legal systems as courts and

parliaments must now deal with a growing rate of cases concerning cultural pluralism Headline grabbing disputes usually

concern challenges to fundamental rights and principles which may be put at risk by some religious or cultural practices

These are difficult issues questioning the compatibility between some cultural and religious practices and constitutional

values However much of the interaction between law and cultural pluralism also concerns daily life activities which do not

necessarily challenge fundamental rights This book deals with food clothing and days of rest three expressions of both human

needs and identity which are based on ethnic origin tradition culture religion or simply taste The volume looks at the

intersection between these choices and constitutional rights such as religious liberty or freedom of expression It aims to

understand how the state legal system deals with them and when non mainstreaming behaviours are accommodated Four legal systems are taken into consideration the United States of America Canada France and Italy exploring similarities and differences in facing cultural diversity around these quotidian issues The book pays particular attention to the places where diversity is most apparent and also considers the choices that are not based on religious precepts but rather on personal philosophy The book will be of interest to researchers academics and policy makers working in the areas of constitutional law law and cultural diversity human rights minority rights and discrimination law
