## **Genderscapes Revisioning Natural Resource Management:**

*Genderscapes* Sumi Krishna, 2014 Even in a realm that would seem to be as far removed from issues of gender as natural resource management gender bias is pernicious and persistent especially in India *Genderscapes* looks at the reasons for this bias from a number of angles including the socialization of attitudes the shaping of community ideologies and the construction of disciplines and research methodologies Sumi Krishna puts forward the novel concept of genderscapes to reflect the totality of women's life worlds and she builds her use of the concept on a group of rich case studies including the caring practices of forest dwellers women's knowledge of biodiversity and their widespread responsibility for farming and food production Women's economic needs cannot be separated from their sociopolitical interests Krishna shows and only by looking at them as a whole can we solve the problem of discrimination

**Sustaining Natural Resources in a Changing Environment** Linda Hantrais, Ruth Kattumuri, Ashley Thomas Lenihan, 2020-06-09 Climate change and environmental degradation have intensified the pressures on crucial resources such as food and water security and air quality In this collection academic researchers and practitioners who have lived and worked in countries as geographically and culturally diverse as Brazil China India Ghana Palestine Uganda and Venezuela draw on their wide ranging international and inter sectoral experience to offer valuable comparative insights into the relationship between research and evidence based policy for sustaining natural resources Their contributions provide a novel mix of disciplinary perspectives ranging across geography ecology social policy the political economy philosophy international development engineering technology architecture and urban planning They examine the institutions involved in generating and mediating evidence about the sustainability of natural resources in a changing environment and the different methodologies employed in collecting and assessing evidence informing policy and contributing to governance The authors demonstrate not only that social science evidence on governance and policy implementation to sustain natural resources must complement natural science inputs but also that local communities must be an integral part of any programme development This book was originally published as a special issue of *Contemporary Social Science*

*Women Reclaiming Sustainable Livelihoods* Wendy Harcourt, 2012-04-26 This volume highlights women's work sustaining local economies and environments particularly in response to the current food fuel and climate crises It includes women's role in the green entrepreneurship women's reproductive and productive work in the care economy and a further examination of eco feminist debates

**The Oxford Handbook of Transnational Feminist Movements** Daniel Beland, Christopher Howard, Kimberly J. Morgan, 2015-02-25 The American welfare state has long been a source of political contention and academic debate This Oxford Handbook pulls together much of our current knowledge about the origins development functions and challenges of American social policy After the Introduction the first substantive part of the handbook offers an historical overview of U S social policy from the colonial era to the present This is followed by a set of chapters on different theoretical perspectives available for understanding and explaining the

development of U S social policy The three following parts of the volume focus on concrete social programs for the elderly the poor and near poor the disabled and workers and families Policy areas covered include health care pensions food assistance housing unemployment benefits disability benefits workers compensation family support and programs for soldiers and veterans The final part of the book focuses on some of the consequences of the U S welfare state for poverty inequality and citizenship Many of the chapters comprising this handbook emphasize the disjointed patterns of policy making inherent to U S policymaking and the public private mix of social provision in which the government helps certain groups of citizens directly e g social insurance or indirectly e g tax expenditures regulations The contributing authors are experts from political science sociology history economics and other social sciences

*Women and Nature?* Douglas Vakoch, Sam Mickey, 2017-07-06 *Women and Nature Beyond Dualism in Gender Body and Environment* provides a historical context for understanding the contested relationships between women and nature and it articulates strategies for moving beyond the dualistic theories and practices that often frame those relationships In 1974 Fran oise d'Eaubonne coined the term ecofeminism to raise awareness about interconnections between women s oppression and nature s domination in an attempt to liberate women and nature from subordination Since then ecofeminism has attracted scholars and activists from various disciplines and positions to assess the relationship between the cultural human and the natural non human through gender reconsiderations The contributors to this volume present critical and constructive perspectives on ecofeminism throughout its history from the beginnings of ecofeminism in the 1970s through to contemporary and emerging

developments in the field drawing on animal studies postcolonialism film studies transgender studies and political ecology This interdisciplinary and international collection of essays demonstrates the ongoing relevance of ecofeminism as a way of understanding and responding to the complex interactions between genders bodies and the natural environment It will be of great interest to students and scholars of ecofeminism as well as those involved in environmental studies and gender studies more broadly

**Women Water Professionals** Sumi Krishna, Arpita De, 2014-03-11 Water management is not an engineering matter alone it involves ecological socio political administrative and legal concerns Gender is a key factor but has been neglected both conventionally and in recent water reform policies and structures Yet a cross section of South Asian women have challenged socio cultural norms and crossed personal and professional boundaries to make a profound impact on water and sanitation management Their inspiring stories have scarcely been documented This book is the first to profile women from Bangladesh India Nepal Pakistan and Sri Lanka women at the grassroots or with NGOs women activists journalists administrators scientists academics action researchers who have faced challenges related to water with courage and determination Complementing the 32 women's voices is data compiled from an analysis of the situation of women water professionals in the region Written in an engaging manner this book will be of interest both to the general reader and to academics and practitioners in water management and gender women's studies Published by Zubaan

*Thinking Gender* Shalini Suryanarayan, Shanthi G, K.G. Gayathridevi, 2020-01-01 Gender usually refers to the socially constructed characteristics of women and men and the set of norms roles and relationships of and between groups of women and men The conceptions of gender vary across cultures and are constantly evolving Feminism gender bias gender discrimination gender identity and gender justice etc are some of the oft debated conceptions in the discourse on gender A multi disciplinary work this book brings together scholarly contributions from academics and researchers at various stages of their careers This book is a festschrift in honour of Professor R Indira Organised along five main themes viz Gender and Cultural Space Gender and Political Space Gender and Domestic Space Gender Education and Work and Gender and Development there are a total of nineteen papers included in this volume Each paper encompasses useful information on the topic concerned mostly supported by the findings of empirical research by the author's This work is sure to broaden the understandings on gender among students and researchers across various academic disciplines besides policy planners and activists

Women's Livelihood Rights Sumi Krishna, 2007-09-10 This interdisciplinary book looks at women's natural resource based livelihoods in the wider context of development viewed through the lens of citizenship rights Unravelling the patriarchal social fabric and policy structures in India it argues that the concept of citizenship needs to be extended to include recognition of ways of life and livelihood so that women take their legitimate space as productive human beings entitled to dignity as a political right and not merely to protection and welfare The editor weaves together a historical perspective on varied dimensions of livelihood development and citizenship Drawing upon rich field based researches in 13

states across India the authors deal with complex and inter related themes the need to recognise women s right to resources and their livelihood and employment strategies the challenges of democratic governance and of restructuring institutional systems to make them responsive and the role of women s collective agency in development Reflecting upon and critically analysing context specific issues in several less studied locations the book shows that there is much to be learnt from empathetic interaction with the collective struggles of poor women and from action and dialogue on the ground Further it suggests that feminist politics has to network strategically with other struggles to counter the resistance of traditional and contemporary patriarchal structures and to work towards recasting citizenship for a gender just development that ensures women s livelihood rights
