Mathematics Matters in Education Yeping Li,W. James Lewis,James J. Madden,2017-10-03 This book is inspired

by Roger E Howe's contributions to the international communities of mathematics and mathematics education. Renowned for his research contributions in the fields of representation theory, automorphic forms, harmonic analysis, and invariant theory, Dr. Howe has also fundamentally deepened our understanding of the mathematics taught in the early school grades and has challenged and stimulated mathematicians and mathematics educators to work together to examine this part of the mathematical universe more critically and in imaginative new ways. This volume will help summarize and highlight Howe's contributions to several topic areas in mathematics education, demonstrating the possibility and importance of engaging mathematicians in high impact research in mathematics education and showcasing the importance of cross disciplinary collaboration and exchange.

The Wrong Direction for Today's Schools Ernest J. Zarra III, 2015-07-22

The Wrong Direction for Today's Schools: The Impact of Common Core on American Education is an in-depth analysis of the newest national American education fad intended to replace the 2002 incarnation of the ESEA No Child Left Behind. Zarra delves into the seeds that produced the Common Core Standards as well as the groups involved in the political and corporate pressure to completely revamp America's K-16 education system. The author lays out a strong case for political motives involving the advancement for nationalized education such as those found in select European and Asian nations. Zarra also follows the funding and provides solid documentation and analysis of international and national assessments and how the funding and assessments proved pivotal in the overhaul of American education. After an analysis of the underpinnings of the

Common Core Standards Zarra critiques the myths and facts of the Common Core and balances these with the emerging realities impacting average Americans and their families Zarra's book is a must read and will prove to be extremely useful to all who are concerned about public private and homeschool education in America
