Richardson,John R. Wilson,Tsungai A. Zengeya,2020-03-10 This open access volume presents a comprehensive account of all aspects of biological invasions in South Africa where research has been conducted over more than three decades and where bold initiatives have been implemented in attempts to control invasions and to reduce their ecological economic and social effects It covers a broad range of themes including history policy development and implementation the status of invasions of animals and plants in terrestrial marine and freshwater environments the development of a robust ecological theory around biological invasions the effectiveness of management interventions and scenarios for the future The South African situation stands out because of the remarkable diversity of the country and the wide range of problems encountered in its varied ecosystems which has resulted in a disproportionate investment into both research and management The South African experience holds many lessons for other parts of the world and this book should be of immense value to researchers students managers and policy makers who deal with biological invasions and ecosystem management and conservation in most other regions **The Opposite of Cheating** Tricia Bertram Gallant,David A. Rettinger,2025-03-11 In these days of an ever expanding internet generative AI and term paper mills students may find it too easy and tempting to cheat and teachers may think they can t keep up What s needed and what Tricia Bertram Gallant and David A Rettinger offer in this timely book is a new approach one that works with the realities of the twenty first century not just to protect academic integrity but also to maximize opportunities for students to learn The Opposite of Cheating presents a positive forward looking research backed vision for what classroom integrity can look like in the GenAI era both in cyberspace and on campus Accordingly the book outlines workable measures teachers can use to better understand why students cheat and to prevent cheating while

aiming to enhance learning and integrity Bertram Gallant and Rettinger provide practical suggestions to help faculty revise the conversation around integrity refocus classes and students on learning reconsider the structure and goals of assessment and generally reframe our response to cheating At the core of this strategy is a call for teachers academic staff institutional leaders and administrators to rethink how we show up for students and to reinforce and fully support quality teaching learning and assessment With its evidentiary basis and its useful tips for instructors across disciplines levels of experience and modes of instruction this book offers a much needed chance to pause rethink our purpose and refocus on what matters creating classes that center human interactions that foster the personal and professional growth of our students

Excellent Teaching Bettina Jansen-Schulz,Till Tantau,2018-10-12 Die Frage wie die Lehre an Hochschulen zu Exzellenz verbessert werden kann beantworten die Autorinnen und Autoren des Sammelbands aus vier Perspektiven Sie betrachten Herausforderungen f r die Steuerung der Organisation Hochschule und diskutieren aktuelle Forschungsentwicklungen insbesondere anhand der Methode Scholarship of Teaching and Learning Au erdem werden gute Beispiele aus der Lehrpraxis pr sentiert und Ans tze vorgestellt um exzellente Lehre sichtbar zu machen Der Band richtet sich an Akteurinnen und Akteure aus der Lehr und Hochschulentwicklung Meeting the Challenges to Measurement in an Era of Accountability Henry Braun,2016-01-29 Under pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4 8 Teachers in these subject areas however constitute less than thirty percent of the teacher workforce in a district Comparatively little has been written about the measurement of achievement in the other grades and subjects This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas with particular attention to their use in the evaluation of teachers and schools in all It addresses traditional end of course tests as well as alternative measures such as portfolios exhibitions and student learning objectives In each case issues related to design and development psychometric considerations and validity challenges are covered from both a generic and a content specific perspective The NCME Applications of Educational Measurement and Assessment series includes edited volumes designed to inform research based applications of educational measurement and assessment Edited by leading experts these books are comprehensive and practical resources on the latest developments in the field The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *Evolution Education Around the Globe* Hasan Deniz,Lisa A. Borgerding,2018-06-21 This edited book provides a global view on evolution education It describes the state of evolution education in different countries that are representative of geographical regions around the globe such as Eastern Europe Western Europe North Africa South Africa North America

South America Middle East Far East South East Asia Australia and New Zealand Studies in evolution education literature can be divided into three main categories a understanding the interrelationships among cognitive affective epistemological and religious factors that are related to peoples views about evolution b designing implementing evaluating evolution education curriculum that reflects contemporary evolution understanding and c reducing antievolutionary attitudes This volume systematically summarizes the evolution education literature across these three categories for each country or geographical region The individual chapters thus include common elements that facilitate a cross cultural meta analysis Written for a primarily academic audience this book provides a much needed common background for future evolution education research across the globe

Fundamentals and Flaws of Standards-Based Testing Charlie DePascale, 2025-05-30 When put to the test will standards based reporting remain as fundamentally flawed as once feared or can next generation approaches refine the system for the better Fundamentals and Flaws of Standards Based Testing offers an inside perspective on the technical challenges encountered during each phase of the assessment cycle Careers in state testing are spent balancing technical logistical financial political psychological sociocultural emotional and measurement considerations while keeping an eye on the educational goals of the state assessment program This insightful and comprehensive book draws on measurement foundations and real life experiences in state testing to discuss critical and still unresolved technical and policy challenges that are being inherited by today s assessment specialists and psychometricians Going beyond core descriptions of psychometric and assessment development procedures and operational best practices in testing this book exposes graduate students and scholars of educational measurement and policy as well as testing industry professionals to real life pressures faced by those charged with designing implementing and maintaining a large scale state assessment program Standard setting test design score reporting validation and more are approached critically and with authentic context

Technologies in Biomedical and Life Sciences Education Harry J. Witchel, Michael W. Lee, 2022-06-24 This contributed volume focuses on understanding the educational strengths and weaknesses of mediated content including media as a learning supplement in comparison to traditional face to face learning Each chapter includes research on and a broad brush summary of approaches to combining life sciences education with educational technologies The chapters are organized into four main sections each of which focuses on a key question regarding the consequences of incorporating media into education In this regard the authors highlight how educational technology is both a bridge and barrier to student access and inclusivity Further they address the ongoing discussion as to whether students need to be present for lectures and on how having agency in their own learning can improve both retention and conceptual understanding To link the content to current events the authors also shed light on the impact that the COVID 19 pandemic is having on the continuity of educational programs and on the growing importance of educational technologies Consequently the book offers life science educators valuable guidance on the technologies already available and an outlook on what is yet to come
