Hentz,Hussein Solomon,2017-05-08

The primary objective of this book is to understand the nature of the Boko Haram insurgency in northeast Nigeria Boko Haram s goal of an Islamic Caliphate starting in the Borno State in the North East that will eventually cover the areas of the former Kanem Borno Empire is a rejection of the modern state system forced on it by the West The central theme of this volume examines the relationship between the failure of the state building project in Nigeria and the outbreak and nature of insurgency At the heart of the Boko Haram phenomenon is a country racked with cleavages making it hard for Nigeria to cohere as a modern state Part I introduces this theme and places the Boko Haram insurgency in a historical context There are however multiple cleavages in Nigeria ethnic regional cultural and religious and Part II examines the different state society dynamics fuelling the conflict Political grievances are common to every society however what gives Boko Haram the space to express such grievances through violence Importantly this volume demonstrates that the insurgency is in fact a reflection of the hollowness within Nigeria s overall security Part III looks at the responses to Boko Haram by Nigeria neighbouring states and external actors For Western actors Boko Haram is seen as part of the global war on terror and the fact that it has pledged allegiance to ISIS encourages this framing However as the chapters here discuss this is an over simplification of Boko Haram and the West needs to address the multiple dimension of Boko Haram This book will be of much interest to students of terrorism and political violence insurgencies African politics war and conflict studies and IR in general

Terrorism is no longer woven into the backdrop of our daily lives but rather it has been pushed to centre stage an ongoing tragedy in which comprehension of the perpetrators motivations is eclipsed by the impact of horror and devastation on its victims and wider society Attempting to make sense of these atrocities and their antecedents a body of literature has accumulated since 9 11 which offers a psychoanalytic perspective on terrorism This research provides a reflective space within which the unconscious motivations primitive conflicts fantasies and impulses that underpin the extreme mindsets and violent actions of the individuals and groups involved may be explored offering insights complementary to those of different disciplines sociological political cultural and other This book brings together contemporary psychoanalytic writers and practitioners involved in the study of radicalisation fundamentalism and terrorism Some of the authors have worked with

terrorists thus grounding their reflections and insights in direct clinical contact with these individuals Understanding the motivations of the perpetrators includes elucidation of the wider group dynamics of minority populations where the perpetuation of violence that is seen as terrorism may be viewed by its perpetrators as a justifiable response to collective experiences of subjugation humiliation and injustice suffered over generations Understanding such perspectives is not colluding with the aggressors but rather it may contribute to interventions at both individual and global levels that attempt to break the deadly cycle of violence This book was originally published as two special issues of Psychoanalytic Psychotherapy
